### CLEVELAND SEEKING NEW YORK MURDERER

CLEVELAND, O., Nov. 22.—(INS)—Search for the slayer of Arnold Rothstein, New York millionaire gambler, who was shot to death in a hotel room in New York recently, was being carried on here today following receipt of word from New York City authorities that they believed the killer was hiding out in the Cleveland underworld.

Acid Gun Used By  
Taxicab Bandits;  
Driver Is Burned

SAN FRANCISCO, Nov. 22.—(UP)—An "acid" gun in the hands of one of two men grabbed as United States sailors early today possibly scarred for life the face of Willard Delfield, taxi driver.

The men held up Delfield as he was taking them across town. One of the men fired his weapon when the taxi driver attempted to throw his bricks.

While he writhed in pain, Delfield told police, they searched his clothing and took \$5 and tied.

FLAPPER FANNY SAYS:

This automobile age is responsible for girls being driven away from home.

### LOS ALAMITOS GIRL KILLED IN ACCIDENT

### NEAR-MUTINY OF SHIP CREW IS REVEALED

By HARRZ FERGUSON  
(United Press Staff Correspondent)

NEW YORK, Nov. 22.—The accusation of near-mutiny stood as another black mark to the against the crew of the Lamport and Holt liner *Vestris* which carried 114 persons to death when she sank off the Virginia coast.

Chief Officer Frank W. Johnson

is down on the records as swearing that his subordinates refused to obey his orders when he tried to man the lifeboats and save the lives of the passengers.

He testified yesterday for the second time before United States Commissioner Francis O'Neill in the federal government's inquiry to determine whether there is any basis for criminal prosecution.

Experts said Johnson's testimony was the most significant that had been given to date.

After he had testified that his orders were disobeyed, the chief officer turned to Commissioner O'Neill, and, in a helpless voice, said:

"What could I do?"

Previously he had admitted the following:

That the *Vestris* had been unsafe from 7:30 p. m. Nov. 11 (the day before the ship sank).

That it was obvious at 4 a. m. Nov. 12 that water was coming into the *Vestris* faster than it could be pumped out.

That he had reported the condition of the vessel to Capt. William J. Carey, but that the captain did not tell him why an SOS was not sent out until 10 a. m. Nov. 12.

A witness before a federal in-

### FATHER ACQUITTED OF MURDERING SON

CHICAGO, Nov. 22.—(UP)—After considering the case for only five minutes a jury today found Arthur Falk, prominent Chicago politician, not guilty of the murder of his 21-year-old son, Eldred.

Falk's daughter, Vernus, testified that her father killed her brother when the boy criticized him for coming home drunk.

Falk and his wife were in court but neither was called upon to testify.

Good Samaritan  
Insane, Jurors In  
Death Case Find

UNION, Mo., Nov. 22.—(UP)—Mrs. Bertha Gifford, the "good samaritan" of Catawissa, Mo., pronounced insane by a jury last night, probably will spend the rest of her life in an asylum.

Mrs. Gifford confessed putting arsenic in medicine of Edward P. Brinley and is suspected of 17 similar poisonings in the neighborhood, extending over a period of years. She was on trial for Brinley's murder.

The jury was out three hours.

Mrs. Gifford, who is 53 years old, was not in court when the jury reported but entered later with her husband, Eugene. She was calm as the verdict was announced.

SIX MEN LOST ON ICE

LANGRUTH, Man., Nov. 22.—(UP)—Blown out from shore on a broad sheet of thin ice, six men were believed today to have perished in the waters of Lake Manitoba.

Five of the men were known to have been on the ice when it broke away from shore late Tuesday and was swept out on the lake by a strong wind.

Joe Lopston, a fireman, went to their rescue in a small boat and was lost from sight several miles from shore.

### Ends Work On First Speech Of Long Tour

Will Deliver Address Next  
Sunday at Amalpa—Fine  
Weather Prevails

By LAWRENCE SULLIVAN  
I.N.S. Staff Correspondent

A BOARD U.S.S. MARYLAND, (via Arlington, Va., radio station) Nov. 22.—While the Maryland plowed southward today at 17 knots an hour, 150 miles off the Mexican coast, President-elect Herbert Hoover, wearing a yesterman's cap pushed far back on his head, spent some time at his desk weaving the genial mood of a successful fisherman into the first speech of his good will tour which will be delivered at Amalpa, Honduras, on Sunday.

The president-elect, who is an ardent angler, had full cause to feel happy over his fishing exploits of Wednesday.

Even before the launch bearing the fishing party returned to the Maryland, Mrs. Hoover, who had been watching through glasses at the rail of the warship, noted with jubilation that the expedition was a success. The launch was two miles away, but clouds of flying spray could be seen where a fighting dolphin was churning up the water.

"They have caught something that is beating up a tremendous fuss," remarked Mrs. Hoover.

The fishing was done in 500 fathoms, 3000 feet, of water and it was twilight before the Hoover fishing party returned. A searchlight played on the starboard gangway while the president-elect and his fellow anglers boarded the ship, their catch being carried in canvas bags.

A canvas sheet was spread upon the quarter deck as the finny victims of the anglers' skill were spread out to view.

Mrs. Hoover was enthusiastic as the big fellows were tumbled upon the canvas and even some of the ship's officers said they had never seen finer fish.

"Fine, daddy" exclaimed Mrs. Hoover.

The president-elect beamed, but whispered softly aside: "It took me 15 minutes to land that big fellow."

He pointed to a monster.

George Akerson, secretary to Mr. Hoover, hooked 20 pounds of bottom and three newspaper correspondents added 60 additional pounds to the fine frying pan goods.

Some of the fish were not yet dead and they flopped upon the canvas as though they found it no honor to be hooked even by a presidential party.

"We will all have a fine break-

RIVER BOAT SINKS;  
CREW GETS ASHORE

GALLIPOLIS, O., Nov. 22.—(UP)—Struck by powerful gust of wind, the steamer Charles R. Wilson capsized and sank in the Ohio river here last night.

Captain Wright, Chief Engineer John Huber and the cabin and deck crew of 10, including two women cooks, reached shore in a yawl.

The Charles R. Wilson was used in towing sand and gravel.

The craft was valued at \$40,000.

Falk and his wife were in court but neither was called upon to testify.

Maid Of Actress  
Hit Woman Driver  
Complaint Charges

LOS ANGELES, Nov. 22.—(UP)—A battery complaint has been

issued against Edna Clayton,

Negro maid employed by Alma

Rubens, screen actress, as the re-

sult of altercations that followed a collision between the film play-

er's car and one driven by Mrs.

H. W. Schooler.

Mrs. Schooler charged that the

maid became offensive and struck

her. The complaint also said that

Miss Rubens, not in the car at

the time but coming from her

studio to start home, upheld the

charge of the maid. Miss Rubens

denied any part in the encounter.

(Continued on Page 2)

EXPLOSION WRECKS  
PLATE GLASS PLANT

BARBERTON, O., Nov. 22.—(UP)—An explosion partially

wrecked the Pittsburgh Plate

Glass company plant here today.

Sixteen men were reported in-

jured. Every available physician

was rushed to the scene.

The cause of the blast was a

fire in the plant.

The cause of the explosion was

not known.

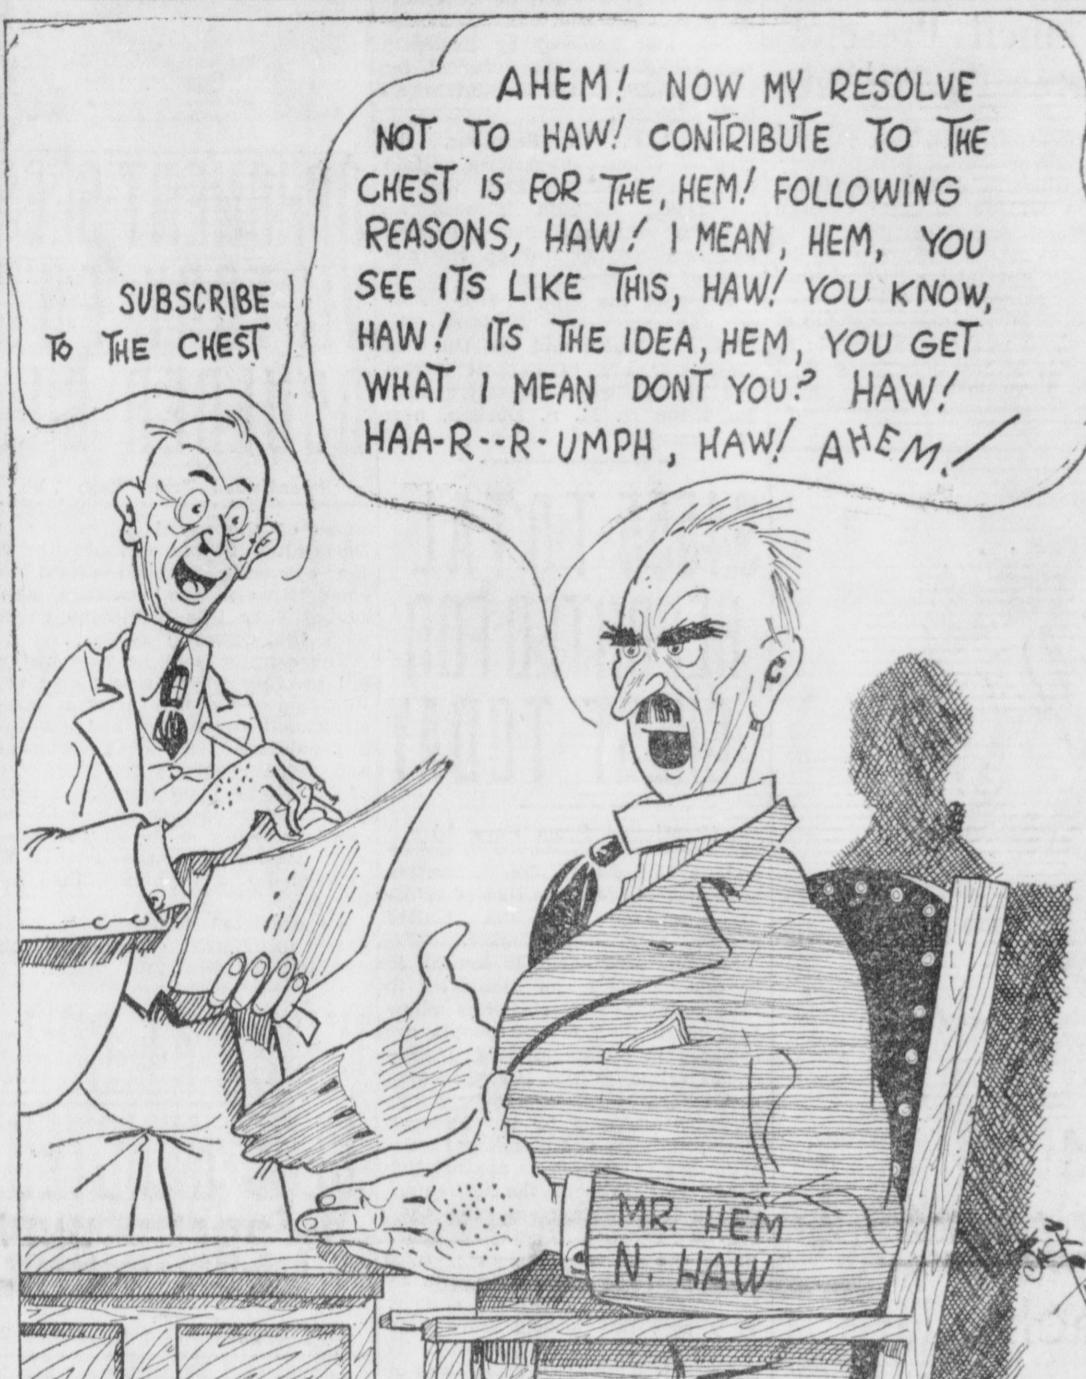

First reports said several of

the injured were expected to die.

They were removed to hospitals.

### OPPONENT SEES VICTORY FOR BOULDER BILL

WASHINGTON, Nov. 22.—(UP)—

—Senator King, Democrat, Utah, one of the foremost op-

ponents of the Boulder dam project, predicted at the White House today that the bill authorizing a dam in Boulder canyon would pass in some form at the short

session of congress.

King reiterated his belief that

the Boulder dam proposal was un-

wise and unjust to some of the

states involved and said that he

would introduce several amend-

ments.

The senator also discussed with

President Coolidge the Philippine

situation, urging that the islands be

given their independence be-

fore the session of congress.

President Coolidge said he

had no objection to the bill.

King also said he had no objection to the bill.

A WORD OF COMFORT  
It is hard for the cautious to recognize it and for the disappointed to believe it, but the fact remains that no one can gain the full rewards of faith in God who does not give sway to a certain spirit of abandon which will risk everything and stand or fall on the consequences of a complete venture of faith in the love of God.  
Believe that God loves you, act on that thesis, go forward in sincere trust and the comfort and peace and strength you crave will be yours.

DE LAPP—At Artesia, November 20, 1923. John B. J. DeLapp, age 80 years. Funeral services under the direction of Howell and Brown, were held at 2 o'clock this afternoon. Huntington Beach Christian church, the pastor, the Rev. J. G. Hurst officiating. Interment in Central Memorial park.

## FARM BUREAU'S UTILITIES HEAD TO BE PRESENT

## ADVERTISING FUND ENABLES CHAMBER OF COMMERCE TO BRING SANTA ANA TO FORE

The following article, submitted to The Register by a friend of the Santa Ana Chamber of Commerce, explains how great cities are built and outlines the latest advertising campaign of the chamber, made possible by the community advertising fund.

Community advertising, in all its forms, is community building.

Community building manifests itself in the power to make permanent and profitable patrons for the community.

The power to make permanent and profitable patrons for the community is not a question of luck. It is not alone a question of natural advantages. It is not a matter of chance. On the contrary, it is an accepted belief that cities like Santa Ana are built where men want them, where men of business initiative, business imagination and business co-operation determine they shall be.

Santa Ana, midway between the mountains and the sea, had nothing more tangible to begin with than a climate, but the spirit of our people made it the acknowledged center and metropolis of Orange county.

Aggressive Type of Men  
A decade ago Santa Ana was completely outplayed by many cities of the rich Mississippi valley. However, the business and professional men of this vast empire refused to accept this decree of fate. The young men and women who accepted Horace Greeley's advice to "go west" found in this western city, a type of aggressive men who turned these transient patrons of the Mississippi valley into permanent Santa Ana residents and the rest of the story may be seen in the official census figures of 1910 and 1920.

Plans for the affair were launched several weeks ago, following Deuel's appearance here in an address on the reapportionment measure, for which he was working. Setting of a definite date was dependent upon Deuel's ability to be present and definite information that he would be here December 1 was received today by Blaney.

Accompanying Deuel will be Engineers Rhodes and Fry, from the telephone division of the railroad commission, who will be able to explain technical points which may arise in the discussion.

Archie Jackson, Compton man, charged with attempting to pass a fictitious check here several weeks ago, was arraigned in Justice Kenneth Morrison's court this morning.

His preliminary examination was set for 9:30 tomorrow morning and bail was fixed at \$1000.

According to the complaint in the case, Jackson attempted to pass a check for \$60 with A. L. Cavanaugh.

PLACENTIA

The regular meeting of the B. G. N. club, which was to have been held at the home of Mrs. Jeanette Blattner Tuesday, was postponed because of the illness of so many members.

The Prospectors club of Olinia enjoyed a trip Saturday to Los Angeles, where they had a swim at Bimini.

## BAIL IN CHECK CASE IS FIXED AT \$1000

Grand Rapids, Mich., is not the furniture center of the world because she, in her infancy, was rocked in a primeval forest of mahogany.

Detroit is not the automobile center of the world because of any natural advantage other than a large supply of compressed air.

Even in ancient times, Athens, the first city of the world, was built on rocky shores rather than in some smiling, sunny valley of Asia Minor. Cities have been built and will continue to be built where ambition, in the hearts of men and women, is determined they shall be built. In the final analysis it is the spirit of a people that makes a community great.

Santa Ana has the spirit to draw people. That spirit is going forth in the shape of NINE THOUSAND EIGHT HUNDRED AND FIFTY booklets. These little messengers have gone forward to tell the story of Santa Ana's opportunities and advantages. They are

## Court Notes

P. Abriola, 49, and Ramon Cruz, Santa Ana, were arrested at the Logan street school house last night on a drunk charge by Officers Murray and Flower and lodged in the county jail.

Charged with overtime parking, the following were fined \$2 each in police court yesterday: F. L. Shillings, Ross Boyd, A. F. Nowotny, S. L. Bernstein and Ruth L. Armstrong.

Word has been received here of the death of Mrs. Julia E. Sylvester, in San Francisco, on November 4. Mrs. Sylvester was the mother of Harry O. Sylvester of Los Angeles and of Mrs. Minnie Sylvester Nourse, wife of J. P. Neuse, 345 Arguello boulevard, San Francisco. Mr. and Mrs. Sylvester were early day residents of Westminster and later, for a number of years, resided at the northwest corner of Washington and Bush, this city. Mrs. Sylvester was 73 years of age at the time of her death.

# ASKS COURT TO LAGUNA BEACH ORDER AUDITOR PLAYERS PLAN TO PAY \$1852 4 PRODUCTIONS

Frank F. Davis today is seeking a court order instructing County Auditor W. C. Jerome to honor a warrant in his favor drawn on the Anaheim school district in the amount of \$1852.24.

Davis claimed that the industrial accident commission of California, in an order amending its findings and award in an action brought by Davis against the school district, had given him judgment for \$3918.20. The warrant referred to was part payment of this amount, Davis said, pointing out that Jerome's reason for refusing to honor it was that he found no provision in law for payment of such a claim out of school moneys.

According to the petition, Jerome's position was that the court should say how and from what funds the warrant should be paid.

The claim, Davis pointed out, was based on permanent disability suffered while he was in the employ of the school district.

Superior Judge James L. Allen set 2 p.m., December 10, as the date for a hearing in the matter.

## LAGUNA GARDEN CLUB TO HEAR DR. E. M. MILLS

LAGUNA BEACH, Nov. 22.—Elaborate plans are being made by the Garden club for the mass meeting which is set for Saturday evening in the Community clubhouse.

Speakers for the occasion include Dr. E. M. Mills, of Santa Ana, president of the Rose Society of America, who is said to be extremely well informed on garden subjects.

Moresby White, city attorney, will speak briefly as will Frank Miller if he is able to come. The last word received by the society was that the Riverside man might not be able to be present.

The president of each local organization has been asked to sit on the platform during the evening.

Prof. James E. Son, leader of the Laguna Beach Marine band, is to come from Long Beach to head the musicians in a parade through the streets.

An exhibit of plants and flowers will be made in the hall. The purpose of the meeting is to stimulate interest in beautifying yards.

"There's a time for all things" is the common saying—but Register Classified ads work day and night. Phone 87.

6 Dinner Forks in beautiful Velvet Lined Gift Box \$7.50

W.M. LORENZ  
JEWELER  
106 E. FOURTH ST  
SANTA ANA CALIF

The new arrival has been named Sarah Jean McIntosh.

Mrs. W. P. Trece and children spent Sunday in Los Angeles with her mother, Mrs. A. C. Portz.

Mr. and Mrs. Louis Yaeger left Tuesday morning for a motor trip east as they are to take positions aboard a boat on the Great Lakes and will visit relatives enroute. A month will be spent in Missouri and in Wisconsin they will visit Mr. Yaeger's people before taking up their residence in Ventura.

W. P. Trece, who has spent the past week in Santa Barbara, where he was putting up an oil well rig, returned home Monday evening.

The Community players, directed by Mrs. Guy Bates Post, will produce "A Quiet Game," a comedy by Ellis Jones, with Grace Ryerson, Virginia Marguerite Thurston, Irvin Couse and Jack McLaughlin in the cast.

"Roses of Judea" will be given by Ruth Walter, Evelyn Riddell, Mary Isch, Charles Barnes, Addison Van Loenen and Charles Bowen. It was written by Louis T. Gerdine. Mrs. Gerdine, the author, is visiting in Laguna Beach.

"Rendez-Vous," a fantasy in pantomime with a musical score written by W. Aletter and Adrian Ross, will be given by Gretchen Schwinn and Halmar Forrest.

These three plays will be given by November 30 and December 1 in the Community club.

The Community players have resolved that a complete change, with the exception of the director, will be made each time a production is given. The most recent play given by them, "The Torch-bearers," was a financial success. A social gathering of all in this group is to be held soon.

"Uncle Tom's Cabin" is set late in December and will probably be given in a converted store on Coast boulevard, which is to be the headquarters of this group of players, the Little Art players. It is to be directed by Wayne Moore. Posters advertising this have already been made by Al Dupont, and Howard Sheridan is collecting suitable costumes.

WINTERSBURG, Nov. 22.—Mr. and Mrs. W. T. Vandruff and family spent Sunday in Belleview, where they visited their son-in-law and daughter, Mr. and Mrs. Irvin Greer.

Mr. and Mrs. Dave Johnson were Tuesday visitors in the home of Mr. and Mrs. W. W. Blaylock. The visitors are of Hawthorne.

Mr. and Mrs. J. W. McIntosh are the proud parents of a 10-pound baby daughter, who arrived in their home Sunday morning.

An exhibit of plants and flowers will be made in the hall. The purpose of the meeting is to stimulate interest in beautifying yards.

"There's a time for all things" is the common saying—but Register Classified ads work day and night. Phone 87.

## LA HABRA

LA HABRA, Nov. 22.—Mr. and Mrs. F. H. Fulman are newcomers to La Habra from Whittier. They are located on East Third street.

Mr. and Mrs. S. B. McCamish are spending the week with relatives in Ventura.

Mrs. Cline Guthrie entertained as dinner guests last night, Mr. and Mrs. Carl Bolton and daughter, LaFern, of Eagle Rock.

Mrs. Jennie Beavers, of Arkansas, a former resident of La Habra, is looking after business interests in La Habra.

Miss Gertrude Turner, of Ingewood, has been a house guest of Miss Josephine Taylor.

Mrs. Robert Care has returned from several days' visit with friends in Redlands.

Mrs. B. Borach has arrived from Yolo to care for her daughter, Mrs. William Abrams, who is ill with influenza.

Mrs. A. J. Wilson entertained at dinner Tuesday evening, Mr. and Mrs. Ray Frantz, Mr. and Mrs. W. H. Wallin and Mr. and Mrs. R. W. Walling.

Plans are being made for a Thanksgiving party next week for

the children of the members of the Thursday Afternoon club at the R. E. Frost home.

Mr. and Mrs. Vol Ashiro, of Inglewood, will spend the week end at the Clint Guthrie home.

Mr. and Mrs. W. Brunner, of Bellflower, are newcomers to La Habra. They are located on East Second street.

Mr. and Mrs. Andrew Smiley entertained the following dinner guests Sunday: Mr. and Mrs. J. A. Smiley and son, Deane, and Miss Elizabeth Beale, of Santa Ana.

Mr. and Mrs. Henry Beulke and family, to Anaheim; Mr. and Mrs. C. P. Bryan and family, and Mrs. August Ziegler and daughter, Myrtle, visited relatives in Los Angeles Sunday.

Mr. and Mrs. Claud Hammond, of Eureka, Kans., visited in the H. D. Adams home Sunday.

Mr. and Mrs. W. F. Beck, of Los Angeles, visited in the F. D. Lockman home Sunday.

Mr. and Mrs. H. D. Adams attended a picnic dinner of old friends from Eureka, Kans., in the home of Mr. and Mrs. A. Angst in Anaheim, Sunday. Eighteen persons were present.

Earl Morrill, of Los Angeles, spent the week end with his parents, Mr. and Mrs. W. M. Morrill.

Mrs. J. Edmund Snow, of Santa Ana, spent Wednesday with Mrs. J. V. Kelsey.

Excursions fares for Thanksgiving will be in effect between all points on the Union Pacific west of Salt Lake City. Tickets will be on sale November 27-29 with final return limit December 3rd, at one and one-third fare for the round trip.—Adv.

## SERVICES ARE CONDUCTED FOR JOHN C. DALLAS

Court Dismisses Charge Against Lydia Schroeder

A charge of receiving stolen goods, placed against Mrs. Lydia Schroeder, of Santa Ana, had been dismissed today in the justice court.

The charge specified silverware, valued at \$300. Testimony of witnesses was to the effect that the silverware had been given to Mrs. Schroeder by Edward Baker, also of Santa Ana.

Baker, who did not hear testimony of these witnesses, corroborated it when he was on the stand.

## BREAKFASTERS WILL NOT MEET NOVEMBER 29

Between 65 and 70 members of the Santa Ana Breakfast club were present at an enthusiastic meeting of the organization this morning at St. Ann's Inn. A well arranged program was presented by the entertainment committee, with Nat Neff as chairman. Other members of the committee were Cliff Chaffee, L. R. King and Bert Mooney.

A clever impersonation of a colored boy was given by Paul V. Banks, who gave several songs and dances. Mrs. Cliff Chaffee sang two solos. Mrs. Jimmie Hughes was her accompanist. Two musical numbers were given by Cliff Chaffee, L. R. King and Bert Mooney.

As the next regular meeting day falls on Thanksgiving, no meeting will be held, it was announced. Meetings will be resumed on the following Thursday. The committee appointed for the entertainment for the coming breakfast meet will be headed by Cecil Marks. Harvey Traveler, Ernest Leue and Ray Moore will work with Marks in the preparation of the program.

## Embarassed By Husband, Claims Wife In Divorce

Edna Mae Seeger today brought suit for divorce against Warren L. Seeger, listing among his alleged faults a habit of turning out the lights in their home when she was entertaining guests.

He also told her she was the biggest liar in the world, an idiot and a gold digger, the complaint stated. The couple married in 1918 and separated November 19, the complaint pointed out.

Mrs. Seeger is represented by G. K. Stovell, Santa Ana attorney.

## Rifle Club Plans Shoot For Turkeys

With a newly equipped range, the La Habra Rifle club will hold one of its celebrated Thanksgiving turkey shoots next Saturday and Sunday. The range is located on the Standard-Murphy lease, two miles southwest of the city, and has just been completely remodeled with all the latest conveniences for trap or target shooting.

The diving apparatus consists of a helmet, fitting over the diver's head and shoulders, and a tube through which air is pumped by a hand pump from the surface. Water is kept from entering the helmet by the pressure of the air which is pumped into it.

The diver is let down by a rope, slowly, so that he may become accustomed to the increased pressure under water. McLean said. McLean has had much experience diving in San Diego bay, having attended Coronado high school last year.

## DEEP SEA DIVING IS NEW COLLEGE SPORT

As the latest winter sport in Santa Ana junior college, deep sea diving has been introduced at the outdoor pool in Andrews gymnasium. Bob McLean, varsity football player, and Coach Bill Cook tested a diving suit, constructed by McLean, in the pool yesterday. The two intend soon to explore the mysteries of Laguna Beach under sea channels and caves, and may try their luck for abalone later in the season.

## ATTORNEY SEES FOOTPRINTS AS HELP TO POLICE

LAGUNA BEACH, Nov. 22.—That footprints are a method of detecting crime which deserve more attention than are usually given to the subject is the contention of Moresby White, city attorney of this city, who has studied this phase of crime detection and is rated as somewhat of an authority.

White, who studied law in England and rose to a recognized position as a practitioner in the courts of that country, first took up the study when certain cases came to his notice there. Later, when his health broke, and he came to California to recuperate, he followed the study again as a hobby.

The naked foot is marked similarly to the naked hand, the attorney says, and the arrangement of whorls is nearly identical on the hand and foot on the same side of the body. Tracing the origin to the ape-like ancestors and the time when they served a definite need in daily life, the attorney brings the study down to its application to crime detection.

Instancing the application of his studies to police purposes, Mr. White relates a case in which footprints at the scene of the crime showed feet with the toes turning in.

The suspected person was found to have toes which turned in, and this became the point which brought about a conviction. In another case in which Mr. White was interested, the culprit tied woman's shoes beneath his own, with the purpose of leaving tracks which would mislead the police. But because he failed to shorten his strides, the ruse was detected and he was eventually caught, tried and convicted.

"When a person is walking, toes turn outwards in most cases," the attorney explained. "But if a man is carrying a burden his foot is heavier and deeper at heel and toe with a much straighter toe than usual. The gait varies with different persons, from the side shuffle of the sailor to the long straight stride of a soldier. Negroes turn the toes inwards. Men in a hurry step very straight."

"The foot when covered by a shoe will always impart some of its peculiarities to the sole of the shoe and to the upper. Ask a cobbler; he'll tell you. Each shoe has a different story to tell. A print made in the damp earth or elsewhere will show most of the peculiar characteristics."

# Radio Interference Found In All Parts Of Santa Ana

## RADIO PROVES GREAT HELP IN CRIMINAL HUNT

By CECIL OWEN  
United Press Staff Correspondent

WASHINGTON, Nov. 22.—Police departments throughout the United States are finding in radio a new ally in detecting crime and swiftly apprehending criminals, records of the federal radio commission reveal.

Three of the largest police departments in the country now operate their own short-wave stations and quickly transmit to outlying sections and patrol wagons reports of robberies and descriptions of the criminals.

Within a few minutes after a hold-up has occurred in Detroit's downtown section, all details available are dispatched by that city's radio to various suburban stations. New York and Dallas police are also using radio in this way and Boston's fire department has a short wave set.

**Pennsylvania System**  
But the Pennsylvania state police, with far-flung outposts throughout that state, have developed radio as a crime detector to its greatest extent. Five stations, at Harrisburg, West Reading, Greensburg, Wyoming and Butler, are maintained by the Pennsylvania constabulary.

Police short-wave stations transmit their reports entirely in code so they may not be understood by anyone with a receiving set, but many regular broadcasting stations are co-operating also in this movement.

Station KGO, Oakland, Calif., broadcasts descriptions of criminals supplied by the San Francisco and Oakland police departments. A receiving set has been installed on the Carquinez bridge, north of Oakland, to listen in on these reports as lawbreakers sometimes speed for the bridge after a crime.

**Short Wave Network Due**  
Amateur operators are also proving useful in relaying messages to various points telling of crimes. Police departments maintain contacts with amateurs in their districts and call on them in emergencies for "under cover" work. The amateurs are well organized and hold themselves in readiness for such service.

Radio engineers visualize a time in the near future when there will be a network of short wave police stations extending throughout the United States. Resolutions setting aside a band of short wave channels "to facilitate rapid transmission of information of value in detection of crime and pursuit of criminals" were approved by the International Radio-Teletype convention which met here in 1927.

When the short wave channels to be assigned to the United States have been finally determined, the Federal Radio Commission, it is expected, will allocate certain waves especially to this work.

## WHEN HOOVER ADDRESSES NATION

This remarkable new picture of President-elect Hoover shows the nation's next chief executive as he appears when addressing millions over the radio microphone. Mr. Hoover is expected to speak to the people frequently by means of this agency.

(Copyright, 1928, by NEA Service, Inc.)

## KEITH HOWARD IS SALES CHIEF FOR RADIO DEN

## WAVELENGTH SYNCHRONIZATION NEXT STEP TOWARD REDUCING RADIO INTERFERENCES, CLAIM

By ISRAEL KLEIN  
Science Editor, NEA Service

Out of the welter of radio frequencies, time divisions and power assignments among American broadcasters may come some solution that will prove the nearest approach to a happy ending our radio engineers can offer.

The present radio reallocations are merely a temporary relief awaiting this end.

What the climax may be, when interference will be no more and every station will have its way, no one can tell. But at least there's a hint at the solution in the proposal of several radio broadcasters and their engineers to attempt some form of synchronization on one wavelength.

Experiments have been going on for some time, both in this country and in Europe, in the synchronization of two or more broadcasting stations on the same frequency, when they happen to be linked together to transmit the same program. In England even today eight stations of the British Broadcasting company are being linked together giving the same program to their fans on a single wavelength.

Howard has assumed the position of sales manager for the Radio Den and in that capacity will continue to handle the Federal radio receiver with which he has had considerable success here.

Ashford declared that Howard would continue to make contacts with all his old and new customers and would continue to manage the destinies of the Santa Ana Federal DX club, which, at the present time has a large membership.

Howard and Ashford also have made arrangements to continue the excellent repair service always given Federal owners here, the set servicing to be done in the repair shop of the Radio Den.

Joe Adams, formerly salesman with Howard's organization, also has become identified with the Den.

## BEFORE THE MIKE

Radio bridge has returned to the mike. This year, however, it will not appropriate the time of evening entertainments. The regular series of bridge games over the NBC network is scheduled for 4:30 Tuesday afternoon.

WBZ-WBZ Synchronized

In this country various methods for synchronization have tried and have been found more or less successful. The most practicable of all is the linkage of WBZ, Springfield, Mass., and WBZ, Boston, on the same wavelength. This is done by direct wire and is considered the most accurate of all methods under consideration.

Synchronization of chain broadcasters in this country would leave more wavelengths to be divided among the independent broadcasters, at least during the time the chains are on the air. The independents would have more time on the air and there would be less interference among them.

That the federal radio commission might incline favorably toward this solution is suggested by Dr. J. H. DeLlinger, its chief engineer, covering in detail proposed regulations for synchronization experiments. It is the result of requests by several persons and organizations for permission to conduct such experiments.

Synchronization, DeLlinger points out, will not eliminate interference among the stations entirely, although it will reduce this to a minimum.

"Even in exact synchronization," he says, "the waves reaching the listener will be of varying phase so that some types of interference may be expected."

The difficulty with synchronization, he adds, lies in the control of the frequency to be used.

Control of Frequency

"The degree of synchronization," he points out, "requires control of frequency to an extraordinary constancy and accuracy, as yet attained by few laboratories. The piezo-oscillators—which control the frequencies—must be capable of remaining constant in frequency continuously, that is for many months, within 20 cycles."

That is quite a strict limitation, yet even this slight band is enough to cause a whistle in the fan's radio receiver, as one station varies from another on the same chain to this extent.

Dellinger enumerates nine methods of synchronization, four of

which are:

1. Direct wire.

2. Radio bridge.

What's On  
the  
Air!

# Seiberling

News For  
the  
Fans!

## OLD FASHIONED BEE IS PLANNED BY SEIBERLING

ing—unless listeners-in want to supply their own.

This novel program will be opened with a quartet selection. There was always a quartet, you remember. And it should provide one of the gems of the evening, for the Seiberling Singers will do a brand new arrangement, by Frank Black, orchestra director of the Seiberling hour and one of the foremost of modern arrangers and composers, of "Song of India" by Rimsky-Korsakow.

No old-fashioned "Bee" was complete without a fiddler. This "Bee in Modern Dress" will provide a whole chorus of "fiddlers," the famous Seiberling "Singing Violins" who will play a special violin chorus transcription of Nevin's "Mighty Lak a Rose." And instead of one pianist, there will be two—Phil Ohman and Victor

An old-fashioned "Bee"—the sort of sitting room entertainment which was once a chief source of rural American amusement—will be duplicated "in modern dress" tonight, when the Seiberling Singers will invite their 30,000,000 "neighbors" to a party. Only the cider and doughnuts will be miss-

## REQUESTS WILL BE GRANTED ON NBC PROGRAM

The first request program of the Lucky Strike dance orchestra will be broadcast from coast to coast through a nation-wide network of NBC system stations on Saturday night from 7 to 8 o'clock, Pacific standard time.

Selections which have been asked for in thousands of letters from homes that dot the country from the Atlantic to the Pacific will be heard at that time. Among the most popular of such requested dance airs are "Parade of the Wooden Soldiers," "Pickin' Cotton" and "Ready for the River."

The hour also will include several of the current hits that are "making Broadway Broadway"—"I Can't Give You Anything But Love" from the "Blackbirds of 1928," and "What a Night for Love" from the "Vanities." The program on this date opens with the familiar theme tune, "This Is My Lucky Day," followed with a voice accompaniment to new orchestral versions of "Doin' the Raccoon" and "Round Evening."

Stations on the Pacific coast associated in the coast to coast hook-up of the NBC system for the Lucky Strike dance hour are KFI, Los Angeles; KHQ, Spokane; KOMO, Seattle; KGW, Portland; KGO, Oakland, and KPO, San Francisco.

## New York State Is Admitted To Hearing On WGY

WASHINGTON, Nov. 22—Council for the federal radio commission, answering the request of Attorney-General Ottinger, of New York State, for permission to represent the state at any hearing to be held on application by WGY, Schenectady, for a clearer channel, replied welcoming such representation.

Arden—who, as a result of insistent and repeated requests, will again do "The World Is Waiting for the Sunrise" by Seitz.

There will be a tenor solo, of course—two of 'em, in fact James Melton, Seiberling's own tenor, will sing that best-loved of all tenor selections, "I Hear You Calling Me," and a favorite of many years ago, "Song of Songs," from the dramatic stage hit, "The Climax."

The program promises, besides, two other quartet selections, "Down on the Banks of the Old Yarrow," by Ford, and "Honey Mine," by Maeh.

The Seiberling hour goes on the air every Thursday night from 6 to 6:30 p. m., Pacific coast time, through 37 stations of the National Broadcasting company's Red and Pacific coast networks. This is the world's largest hook-up for a regular, weekly, half-hour program.

Make  
This a  
RADIO  
Christmas

SPLITDORF  
RADIO

You will realize that there's something new in Radio, once you have compared your own receiver with this Splitdorf Como—with its patented Splitdorf DUPLEX All-Electric Receiver, with phonograph jack, power amplifier for the new "250" tube (giving seven times the power!) and DYNAMIC LOUDSPEAKER—the product of seventy years of electrical manufacturing experience.

"SCIENCE AND ART COMBINED"

Splitdorf Radio Receivers are available in Early American, Italian and English cabinets, each an authentic period reproduction designed exclusively for Splitdorf.

## STARS PLAN NBC PROGRAM

Ganna Walska, millionairess and operatic diva, shown above, will lead a gala Thanksgiving day radio party with Belle Baker, vaudeville and concert comedienne, shown at left, over stations allied with WEAF on the NBC system. With them on the program, which comes immediately after the football game on Thanksgiving afternoon, will be the Fox Fur Trappers, under whose sponsorship the special program is to be given.

## SYNCHRONIZING FULL NIGHT RIGHT WAVELENGTHS IS NEXT STEP REQUESTED BY WSAI

(Continued from Page 6)

which are only approximate and therefore less desirable than the others. Among these are:

1. The sending of a control frequency by wire from a single point to each station, as in the case of WBZ and WBZ.

2. Automatic control of a broadcasting-frequency pickup.

3. Low-frequency pickup.

4. High frequency pickup.

The last three methods mean merely the broadcasting of a controlling frequency on a broadcast wavelength, or on a high wavelength or on a low wavelength.

Service Area Reduced

One of the great drawbacks to synchronized chain broadcasting, DeDillingen says, is the reduction of the service area of each station in such a chain. This is his explanation:

"The results of theoretical studies and of such partial trials as have been made indicate that, while heterodyne interference will be removed by synchronization, there will be in its place an annoying impairment of the quality and fluctuation of intensity due to a form of interference of the waves from the two stations. While this may not destroy as much of the service area as would heterodyne interference, it will nevertheless reduce the service area of each station."

"The gain to be expected from synchronization, if and when it is demonstrated, therefore is that many stations may be placed on one frequency, the sum of their service areas being greater than the service area of one station if operating alone on the frequency. It is not known whether this gain will actually be realized."

"In any event, the service area of a synchronized station may be less than it would have been if it operated alone on the frequency. There may be no service in intermediate areas remote from any of the synchronized stations."

"The use of only one station on a frequency is likely to continue as the only means of giving service in large rural areas."

daytime, being forced to close down as soon as darkness linked Cincinnati and Ft. Worth, Texas, where the 800 kilocycle wave also is given to station WBAP which shares time with KTHS, Hot Springs, Arkansas.

Powell Crosley Jr., president of the Crosley Radio corporation, which operates WSAI and owns WLW, said:

"Giving WSAI permission to operate only in the daytime in no way takes care of the people in this part of the country who depend on the station for chain programs and the other diversified programs of WSAI."

"The commission does not yet seem to recognize that what listeners have been asking for is the right to operate WSAI as a regional station with full time."

## REPLACE TUBES ONCE YEAR FOR BEST RESULTS

from the filament of the tube so that while the supply is almost unlimited, the time will come, sooner or later, when the electron emission from the filament will drop off.

When that time comes, the condition that exists is very similar to what takes place when the fire under a boiler is allowed to die down. There still will be some power in the steam produced by the boiler, sufficient perhaps to run an engine at low speed to drive a light load, but if power is required to drive a heavy load at high speed, the "pep" will be lacking.

### Should Test Tubes

With average usage the radio tubes in a receiver will give excellent results for about a year. At the end of that time they should be carefully tested and those that show any indication of being below par should be discarded and replaced with new tubes. It is generally poor policy to use new tubes with old tubes unless the old tubes test up very well, because the changed characteristics of the old tubes, necessitating higher filament and plate voltages to produce average results, cause these excessive voltages to be applied to the new tubes with disastrous results.

**MACHINE FOR SOUNDS**  
When a German radio director wants a special sound in connection with a program, he turns on a sound machine invented for this purpose. The machine, it is said, covers all possible sound effects and is controlled by merely pressing a button.

### Action Incomprehensible

Although to all outward appear-

ance, the vacuum tubes are "at rest" the activity that goes on inside the radio tubes is such as to be almost beyond comprehen-

sion. Every second that the tube is in operation, literally billions of electrons are being shot out

from the filament of the tube so

that while the supply is almost

unlimited, the time will come,

sooner or later, when the electron

emission from the filament will

drop off.

## RCA PLANS SYSTEM OF COMMUNICATION

WASHINGTON, Nov. 22.—The Radio Corporation of America is planning to establish a radio communication company in the United States in direct competition with the wire telegraph service of the Western Union and the Postal companies.

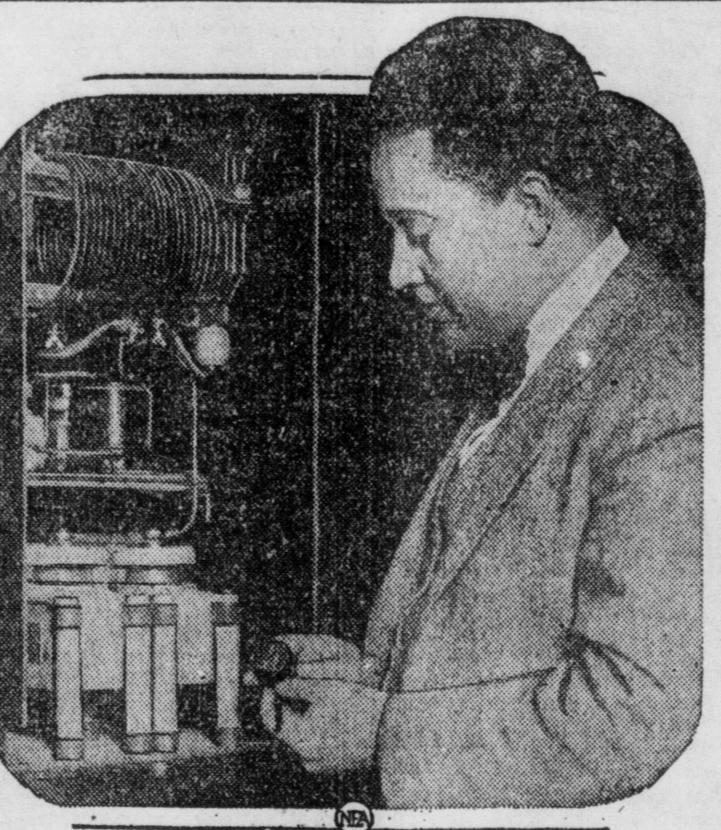

As presented to the federal radio commission, the plan considers the extension of the Radio corporation's system from New York and San Francisco to 30 of the principal commercial centers of the country.

In furtherance of this plan the Radio corporation, through its counsel, Col. Manton Davis, has

asked for 67 short wave channels.

## STATIONS CHANGE HEARTS

November 11 will not only be Armistice day, hereafter, but will be remembered as the day most of the broadcasting stations of the country "changed heart." That's literally true, for the small piezo-electric crystals which control the frequencies of the stations are truly the hearts of the broadcasting equipment. These had to be exchanged or re-calibrated to suit the new wavelengths. Here, for instance, James Beloungy, WEAF's station engineer at Bellmore, L. I., is shown installing the new heart into that station's equipment.

## DX Reception Conditions

### TALK IS CLEAR AT 9000 MILES ON SHORT WAVE

SCHENECTADY, N. Y., Nov. 22.—A two-way radio telephone conversation over a distance of 9000 miles between this city and Sydney, Australia, was carried out recently on the General Electric company's short wave station W-2XAF, operating on 31.4 meters, and the Australian station 2-ME, operating on 28.5 meters.

The experiment was scheduled for 6 o'clock in the morning, corresponding to 9 o'clock in the evening Australian time, but the atmospheric conditions prevented clear communication until 7 o'clock. Reception seemed to be better at the Australian end than at the American, for many of the questions and answers from Australia had to be repeated.

#### Voices Often Clear

At times the voices were as clear and intelligible as if they had come from the other end of a short line, and at other times they were lost or rendered unintelligible by static. Apparently, little trouble was experienced in Sydney.

A. S. Macdonald, chief engineer of Amalgamated Wireless Australasia, Ltd., presided at the Australian end and introduced the various speakers there. At the American end, Maurice Prescott and A. B. Bitt, engineers of the General Electric company, conducted the tests.

D. M. Dow, secretary of the Australian commission to the United States, conversed with E. M. Lawton, American consul at Sydney, having been introduced by R. A. Rowlands, of the International General Electric company. Dow gave the bush cry, "Coo-ee," well known to all of them.

#### WGY Rebroadcasts

Others participating in the conversations were A. D. Rothman, of the Australian Press association; L. J. Deer, of "The Daily Guardian"; Errol Knox, of "The News"; Stuart Hawkins, of "The New York Herald-Tribune"; Harry C. Shaw, of the Keene, (N. H.) "Sentinel"; Charles Rochester, of Schenectady, and Harold Phelps Stokes, of the New York "Times."

The conversations were broadcast in this country over WGY, the General Electric company's station in Schenectady.

## Safest Way to Stop Pain

A plate glass window always loses a fight with a brick!

We insure anything that's insurable.

**Holmes' Protex**  
For Homes

It is not necessary to take heart-depressing drugs or dope of any kind to relieve torture caused by neuritis, neuralgia, sciatica or rheumatism. Just apply Tysmol over the part that hurts and see how quickly you will be free from discomfort.

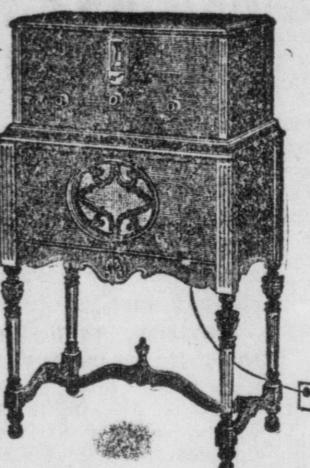

Tysmol is a soothing, healing absorbent that goes in through the pores and drives out inflammation which has settled in the nerves. The minute you rub it on you can feel it beginning to relieve. Pain and aches soon stop, congestion is removed, and soreness and inflammation gradually disappear.

Although Tysmol is put up especially for nerve pain and inflammation, sufferers have found it equally good for taking the misery out of stiff, swollen or aching joints. Also fine for lame back and muscular soreness. Pleasant, harmless and easy to use. Don't fail to try it if you want genuine, lasting relief. You get a liberal supply for \$1 at any drug store. Always in stock at C. S. KELLEY DRUG CO.

News for the Fans!

## Have You Become Accustomed To Your Radio's Reproduction?

### Get Faithful Reproduction of the Low Tones

Your radio can't have fine tone quality unless it gives you fidelity of reproduction on the low tones. Here is why:

Radio reproduction is based on the principle of transforming radio waves in the air into waves that can be heard by the human ear. All sound is the result of waves. In radio language we call them frequencies. The number of frequencies per second determines the pitch or tone.

For example, the tone of the highest key on a standard piano keyboard has 4340 frequencies. The next highest has 4096—a difference of 244. A slight distortion of these values cannot be detected by the ear.

But the tone of the lowest key on an organ has 16 frequencies. And the next 16 94-100—less than one frequency difference. A very slight variation in the response of the speaker here will result in unfaithful reproduction.

It is not difficult to get good reproduction on the high tones. The important thing is to get faithful reproduction on the low tones. That is the real test of tone quality. That is why you should make sure to choose a radio that gives you fidelity of reproduction on the lower tones.

Although Tysmol is put up especially for nerve pain and inflammation, sufferers have found it equally good for taking the misery out of stiff, swollen or aching joints. Also fine for lame back and muscular soreness. Pleasant, harmless and easy to use. Don't fail to try it if you want genuine, lasting relief. You get a liberal supply for \$1 at any drug store. Always in stock at C. S. KELLEY DRUG CO.

You may have a radio that you have had for some time. It sounded mighty good to you when you first bought it; radio was a newer thing then. Because you have become accustomed to it you may think it's still as good as any radio can be; that it gives you faithful reproduction.

But just listen in on a Day-Fan set! You will notice immediately the difference in richness and fidelity of tone—due to the fact that you get the overtones and undertones also—which weren't reproduced on radios of past years.

And you will get a new thrill from the low tones of the bass sax or the organ or any other low pitched instrument because the new Day-Fan reproduces low tones faithfully. That is the most recent and most important development in radio.

If you are considering getting a radio, be sure to hear the Day-Fan—the radio that gives faithful reproduction on low tones and brings in every instrument with its exact tone value and resonance.

# Late News From Orange County Communities

## Placentia Club Hears Los Angeles Banker On Education

### ORANGE COUNTY PLANNING BODY GETS BACKING

PLACENTIA, Nov. 22.—Education is the one thing which can never become standardized in the United States, Orra Minnette, vice president of the Bank of Italy and chairman of the board of directors of the Los Angeles public library, declared in a talk before members of the Placentia Round Table club yesterday.

Mrs. William McLellan was chairman of the program committee.

"The lack of standardization in American education is not to be deplored, being rather a sign of a vigorous people," he said.

As a definition of educated people, he said they must be "gentle, polite, yielding, always compassionate, pure in heart, behaving in public as they do at home. Out of respect for other people's ears, they are often silent. An empty barrel always makes the most noise."

Tom Pickerill, secretary of the chamber of commerce, gave a short talk on the proposed county planning commission, explaining its objects. The club voted to endorse this movement.

The junior college octette sang three numbers, "Carry Me Back to Old Virginny," "Love's Old Sweet Song" and "Lindy." The octette is composed of Eleanor Palmer, Lucile Vogel, Freda Heinze, Faye Walter, Margaret Riffle, Corinne Bush, Dorothy Little and Anna Alice McCormick. They were accompanied by Mrs. Crawford.

Other numbers on the program were violin duets played by Adolph Koch and Ronald Collis, Mrs. Doss being accompanist.

The new piano recently purchased by the club was in use for the first time.

It was announced that December 5 had been set aside as a day for disabled war veterans. Mrs. T. L. McFadden, president of the club, will open her home that day for an afternoon tea. All members are requested to bring a gift for a soldier, and come prepared to buy one made by a soldier.

"There is a time for all things—such is the common saying, but Register Classified ads work day and night. Phone 87.

Dog feed at Newcom's.

### He's Sorry Hoover Chose Ship

LA HABRA, Nov. 22.—There is one man aboard the U. S. S. Maryland who rather wishes that Herbert Hoover had selected some other vessel for his trip to South America. He is Ira Pennell, son of Mrs. Sam Woodworth, of La Habra.

Pennell had planned to marry Miss Margaret Martin in Tilton, Wn., on December 12 and had arranged for a leave of absence.

When word came that the Maryland would carry Hoover, all shore leaves were cancelled. Pennell is a petty officer.

### NEWPORT OFFICIALS RETURN FROM NORTH

NEWPORT BEACH, Nov. 22.—Major Mark Johnson, Councilman Paul Ellsworth, Harry Williamson and Lloyd Claire and City Engineer R. L. Patterson were back in Newport Beach today following a trip to Oregon and other northern points to inspect paving jobs. The city officials made the trip as the guests of Chris Olson, local representative of a large paving concern, and the inspection was made to determine what type of pavement will be used on Lido Isle.

Plans and specifications for streets on the island as well as for other improvements will be prepared soon, it is reported. A bridge is to be constructed connecting the western end of the island with the mainland.

### Alamitos Church Arranges Service For November 29

GARDEN GROVE, Nov. 22.—The Alamitos church will hold services at 10:30 o'clock Thanksgiving morning, with the Rev. C. N. Jones in charge. A basket dinner will be served at noon, with the afternoon given over to visiting and recreation. Everyone is invited to attend.

J. Cooksey, who was in an accident at La Habra about ten days ago, having three ribs broken and a leg badly bruised, is reported to be getting along nicely at the home of his mother-in-law, Mrs. John Parks.

### Bean Warehouse Opens on Monday

SMELTZER, Nov. 22.—The Golden West Lima bean warehouse at Smeltzer is scheduled to open next Monday to finish the cleaning season, which was interrupted a few weeks ago when the foreman of the warehouse sustained injuries when struck by sacks of beans.

H. T. Dunning, manager and owner of the house, will appoint the cleaner with the assistance of P. Bullock, bookkeeper for the firm, as Mr. Sharpe is not sufficiently recovered to return to his position. There will be but a few weeks' work.

OPENING SATURDAY

CYPRESS, Nov. 22.—The Cypress Hardware and Lumber company will hold a formal opening Saturday evening at 8 p. m. A motion picture show will be given and other features have been worked out for the entertainment of those who attend.

La Habra School Head Gives Talk

LA HABRA, Nov. 22.—E. M. Berry, superintendent of local schools, was the speaker at the meeting sponsored by the P. T. A. Tuesday evening. The seven objectives of education as pointed out by the national committee of educators were outlined by Mr. Berry.

Following the talk an open forum was held. The next meeting will be held December 4, and every two weeks thereafter.

### If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small, and You Are Sure to Rest. This Has Convinced Thousands

Sent Free to Prove This

Every ruptured man, woman or child should write at once to W. S. Rice, 232 Main St., Adams, N. Y., for a sample of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a strap or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you, why use this wonderful product in your life? Why suffer the nuisance? Why run the risk of gangrene and such dangers from a small and innocent hole? You know that has thrown thousands of men off the racing table? A host of men and women are daily running such risks just because their ruptures do not hurt or prevent them from doing a full day's work. Write at once for this free trial. It is certainly a wonderful thing and has aided in the cure of ruptures the width of big as a man's two fists. Try and write at once, using the coupon below.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough movement without forming a habit or even increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25¢ today at the nearest Rexall Drug Store. Mateer's Drug Store—Adv.

FREE FOR RUPTURE

### MUSIC BRINGS EVERY MEMBER TO CLUB MEET

NEWPORT BEACH, Nov. 22.—The old saying, "Music has charms," was proven here yesterday, when members of the Exchange club turned out 100 percent to attend a musical meeting of the club.

Russell S. Briggs was in charge of the program. D. C. Cianfoni, leader of the Santa Ana municipal band, played a number of selections. Mr. and Mrs. Russell Briggs and Theodore Robins presented a number of piano, flute and clarinet selections.

One of the features of the program was a short talk by Cianfoni followed by the playing of his new march, "Newport Beach March," by Mr. and Mrs. Briggs and himself. Cianfoni paid a high tribute to the people of the harbor district and pledged his support to any development project the district might want to carry out. Miss Allen Lee of Santa Ana, pianist, accompanied Cianfoni in several solo numbers.

The Exchange club meeting will be held in the American Legion hall in the future and luncheon will be served by the American Legion auxiliary, it was decided yesterday.

An invitation of the Costa Mesa Lions club for the Exchange club baseball team to assist the Mesa team in opening the newly lighted baseball park at Costa Mesa Monday night was accepted. A nine inning game will be played, starting at 7 o'clock.

An evening meeting for wives and sweethearts of members was suggested but the matter was laid over for two weeks and will be handled by the new club officers. Club elections will be held December 5.

### BEACH MAN HELD ON \$150 CHECK CHARGE

ANAHEIM, Nov. 22.—Leon Mote, brought to this city from Long Beach, was arraigned in Judge Charles Kuchel's court yesterday on a charge of passing a fictitious check for \$150 at a department store. Ball was set at \$1000 and Mote was held for a preliminary hearing on December 4 in Judge Kuchel's court.

The check was drawn on a bank in Stratton, Neb.

### P.T. A. Arranges For Entertainment

LA HABRA, Nov. 22.—A meeting of the executive board of the P. T. A. was held Tuesday afternoon in the Washington school and plans made for entertaining at luncheon the fourth P. T. A., January 12. A committee will be appointed by the president, Mrs. E. E. McClure, who presided at the meeting.

Mrs. P. B. Irwin was appointed to secure an entertainer for the P. T. A. assembly for the school children December 7. Plans were introduced for a farce to be given later by the P. T. A.

Gain in the weight of underweight children was reported by the school nurse, Miss Gretta Clark.

### Chapter Reviewed By Orange Society

ORANGE, Nov. 22.—Mrs. C. E. Morrow reviewed the chapter from the book used by members of the Woman's Home Missionary society at their regular monthly meeting today. The book is G. Bromley Oxnam's "New America." The meeting was held in the church parlor.

Among the reports heard was that of the Sunday morning service held at the church in charge of the society. At this time Mrs. Margaret Locke Coates, conference president, gave the address and a \$500 offering was raised for use by the local society.

La Habra School Head Gives Talk

LA HABRA, Nov. 22.—E. M. Berry, superintendent of local schools, was the speaker at the meeting sponsored by the P. T. A. Tuesday evening. The seven objectives of education as pointed out by the national committee of educators were outlined by Mr. Berry.

Following the talk an open forum was held. The next meeting will be held December 4, and every two weeks thereafter.

### O. E. S. of Garden Grove To Install

GARDEN GROVE, Nov. 22.—Public installation of officers of the Garden Grove O. E. S. chapter will be held in the Masonic hall, tonight at 8 o'clock.

### RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough movement without forming a habit or even increasing the dose.

### 15 Past Heads Of Lodge At Gathering

ORANGE, Nov. 22.—The annual banquet given by the new members of the Masonic Lodge was attended by more than 80 members of the order, 15 past masters being present. The last 10 new members were in charge of the meeting.

Each past master gave a resume of his term of office. Short talks were given by a number of visitors who were present.

The principal speaker of the evening was Eli Trago, of Santa Ana, district deputy. Work was put on by the past masters. C. D. Bay, master of the lodge, presided.

On the new board of directors are the following men: O. R. Robertson, I. M. Bartow, E. R. Bartlett, O. M. Berg, Old Hansen Jr., Roy Strang, A. Travaglini, O. F. Easley and Thomas Murphy Jr. The representative will be E. Bartlett.

Captain Hammer, the new secretary, will devote all his time to chamber for a time as will the new president, Dan Mulherron.

At the session it was planned to erect a building on the main highway in which will be the offices of the Spanish village chamber.

The new secretary reports more than 44 members have paid their dues and that he expects to have at least 150 new members in the organization by the beginning of next week.

An active campaign will be opened to acquaint Southern California with San Clemente, its advantages as a resort both in summer and in winter. The chamber also went on record as planning for the building of a picture show, church and for securing for San Clemente industries of an artistic nature.

On their return from this early morning service the young people will be served a breakfast in Epworth hall.

Another affair planned for the young people will take place in Epworth hall tonight, when 50 will participate in a banquet given in honor of Comradeship Week, which is being observed during the present week.

J. Wesley Hole, of Los Angeles, secretary of the young people's work of this conference, will be the speaker of the evening. Hole is the first man young in years to hold this position, it is said.

### Fitzgerald Made Rifle Club Head

CYPRESS, Nov. 22.—J. U. Fitzgerald has been named president of the newly organized Cypress Rifle club, it was reported today. The first shot was held by the club members this week with C. G. Priddy high. The club was organized about two weeks ago and now has 21 members. Jack Fugay is vice president and Ted Welch, secretary-treasurer.

Regular weekly shoots will be held. The contests will be held at a range established near the Cypress baseball park.

### Chapter Reviewed By Orange Society

ORANGE, Nov. 22.—Mrs. C. E. Morrow reviewed the chapter from the book used by members of the Woman's Home Missionary society at their regular monthly meeting today. The book is G. Bromley Oxnam's "New America." The meeting was held in the church parlor.

Among the reports heard was that of the Sunday morning service held at the church in charge of the society. At this time Mrs. Margaret Locke Coates, conference president, gave the address and a \$500 offering was raised for use by the local society.

### Man's Legs Bruised In Fall of 40 Feet

ANAHEIM, Nov. 22.—Adams Hansen, stage manager of the California theater, is recovering from bruises he received when he fell from a 40-foot ladder. Hansen was painting the ceiling on the stage when the ladder slipped. Outside of badly bruised legs he was not hurt.

## Community Players Give 'Seventh Heaven' Tonight

BIG CROWD IS  
ANTICIPATED AT  
YOST SPURGEON

Garbed in the picturesque rags of the Paris slums, Santa Ana Community players of the cast of "Seventh Heaven" last night accomplished their final dress rehearsal, in anticipation of the first performance of the famous play, to be given tonight at Yost's Spurgeon street theater.

Rehearsal fans had an interesting session at last night's performance, finding added enjoyment of the various situations of the drama, as painters, stage managers, scene shifters and costume directors interrupted the action from time to time to make necessary changes or suggestions. However, Marlan Helm Williams felt satisfied with the performance offered by her cast, and all who saw the final rehearsal, felt assured that "Seventh Heaven" will score the success which it so richly deserves.

Tickets have moved rapidly, according to Robert Brown, business manager, who today stated that advance sales had been unusually heavy. Blocks of tickets have been reserved at the Santa Ana Book store for each of the three night, by out-of-town patrons. Laguna Beach, whose players recently achieved marked success with "The Torchbearers," is sending a large delegation, while Placentia, Monrovia and La Jolla are among other communities reserving seats for some one of the three performances.

Earlier plans of the music committee to present vocal solos and trios in the intervals between acts were abandoned after the director suggested that vocal numbers would affect the continuity of the play, and instead an all-organ program was substituted. Alan Revill, one of the city's most accomplished musicians, will preside at the organ each night, and has chosen numbers that will be in complete harmony with the action of "Seventh Heaven."

Probably no performance in Santa Ana Community players' history has been so well calculated to attract interest as "Seventh Heaven," not only because of the fame of the play itself, both on the legitimate stage and on the screen, but because of many newcomers to the local stage. The cast of the play is a large one, giving opportunity to many young people who have had no stage experience beyond that of high school or junior college, but who are taking their roles with enthusiasm and skill.

Among these are the Misses Clara Kate Owens and Loretta Spangler, who will play the important parts of Diane and Arlette; Wyllie Carlisle, who plays the sewer rat; Kenneth Adams as Brissac; William Holman as Gobbin; Laurence Phillips as Uncle Georges; Harry Edwards as Recan; Jack Baker as the sergeant of police; Wilbur Hoke as Blonde and Blythe McCausland as the gendarme.

Mona Summers Smith as Nana will have a different role from any she has done on the local stage, while Valmer Clark will portray the romantic Chico. Albert Stuekel has the difficult role of Boul, the tax driver; Miss Mabel Whiting will play Aunt Valentine; Frank Lansdown will be the genial Pere Chevillon, and Robert Quall will play the lamp lighter.

Students Present  
Musical Program  
In Garden Grove

GARDEN GROVE, Nov. 22.—The Misses Lucille Conway, Velma King, Agnes Wheeler and Bernice Wells, local high school girls, presented a program of musical numbers at the Lions club luncheon Wednesday.

Attention was called to the work accomplished at the Garden Grove Park site the past week.

## MEET 'GLEN,' HOOVER CANINE

Already, the canine gifts to the president-elect are putting in appearance. First to reach Palo Alto was "Glen," this blooded collie sent Mrs. Hoover by a New Jersey kennel.

"GHOST OF LOLLYPOP BAY"  
TO BE STAGED BY STUDENTS  
AT FRANCES WILLARD SCHOOL

Rehearsals are in full swing today for the presentation of "The Ghost of Lollypop Bay," an operetta by Charles Wakefield Cadman, to be given by the Frances Willard junior high school, in the high school auditorium December 6 and 7.

The annual Willard operetta for this year is expected to establish a new record for the junior high school productions. From the pen of the noted composer, Cadman, the operetta is said to be especially adapted for presentation by the local school.

The story of the operetta concerns Miss Jemima Steel, a spinner because of circumstances rather than choice, who has established a summer school for girls on the shore of Lollypop Bay. Prof. Alvin Flint, a bashful bachelor, has established a similar school for boys on the opposite side of the lake. Social relations between the camps are very restricted, but Prof. Flint and his boys are accustomed to call upon Miss Steel and the girls in a body.

Some of the boys find these calls very unsatisfactory. Dinah, Miss Steel's colored maid, declares she has seen a ghost. This suggests to Mary, Midge, and Molly three of the girls, an idea for enlivening matters when the boys call again. The boys and their professor make another call. A ghost is seen by Miss Steel, who looks to Flint for protection. A mild love affair develops between the two. During the excitement, the boys and girls stampede in all directions.

It now develops that Dinah, who has contracted with Miss Steel to serve as maid for the entire season, has a dusky lover with whom she has quarreled. Her anger has cooled and she longs to return to him. To do this, she determines to break up the summer camp, and her pretense of seeing a ghost was to prepare the way for her own masquerade in ghostly attire. It was she who was seen by Miss Steel, but Mary, masquerading at the same time does not know this, nor does Dinah know of Mary's masquerading.

In the second act the students get together again, and Mary and her friends pretend alarm with the rest. Prof. Flint sends Tom, Dick and Harry, the ringleaders of the boys, across the lake for the Golden Bear cafe.

Pope discussed the commissions on rentals. Following Pope's address a general discussion of the subject was held. President Ed Huston was in charge of the meeting.

S. A. Realtor Talks  
On Fees at Beach

HUNTINGTON BEACH, Nov. 22.—F. C. Pope, of Santa Ana, vice president for the twelfth district of the state realty association, spoke at yesterday's meeting of the Huntington Beach Realty board in the Golden Bear cafe.

Pope discussed the commissions on rentals. Following Pope's address a general discussion of the subject was held. President Ed Huston was in charge of the meeting.

## PASTOR SPEAKS

ORANGE, Nov. 22.—The Rev. Franklin Minck, pastor of the First Christian church, was the speaker at the regular meeting of the Lions club yesterday. Reports were given by Oscar Leichtfuss and Dr. J. E. Riley on the work at the Orange county health camp.

APPRECIATION  
TO BE SUBJECT  
OF Y. W. TALKS

"Appreciation" has been chosen as the topic for discussion at the various meetings of the Santa Ana junior Y. W. C. A. this year. The first appreciation talk was delivered at a recent meeting by T. H. Glenn, head of the English department, who spoke on "Appreciation of Literature."

Scheduled for a meeting in the near future, Miss Mary Batten, music instructor, will speak on "Appreciation of Modern Music." Miss Batten also will speak at a later meeting on "Appreciation of Music in General."

Miss Floy Donaldson, head of the art department, will speak on the "Appreciation of Art." Miss Donaldson will discuss the different types of art and will show how to distinguish between certain medieval costumes and designs.

Later in the year, Miss Marion Deanne, of the science department of the Julia Lathrop junior high school, will speak on "Appreciation of Life." Mrs. Louise Madsen, vocalist, will entertain the group during the year, with a talk on "Appreciation of Folk Song." Mrs. Madsen will illustrate her talk with vocal selections.

Two Fires Checked  
By Beach Firemen

HUNTINGTON BEACH, Nov. 22.—Two fires, one late Tuesday night and the other yesterday afternoon, were checked by the local fire department.

Tuesday night a fire was reported at a Standard Oil company rig at Twenty-first street and Magnolia avenue. An overheated clutch caused the fire. Damage amounted to \$100.

An alarm was received from 723 Alabama street yesterday afternoon, when a chicken house on that property caught fire while it was being disinfected. Damage was estimated at \$50.

New Dwelling In  
Atwood is Burned

ATWOOD, Nov. 22.—The new \$3000 bungalow on East Walnut street owned by Mr. and Mrs. Larson was burned to the ground last evening.

The house was vacant, the family living in Long Beach at present. The house was furnished and it is said that an expensive piano was included in the loss.

Defective wiring is said to have been the cause of the fire.

Thief Frightened  
From Home Before  
Arrival Of Police

Police were called to the home of W. H. Tippit, 305 Pacific avenue, early last night, when persons reported they saw a burglar in the house. Members of the Tippit family were away from home at the time.

Officers Dawson, Adams and Flink, who made the call, reported that the thief escaped before they arrived, running out the front door. So far as is known, nothing in the house was taken.

FUNERAL RITES  
OF PASTOR. 91.  
IN L. A. FRIDAY

Arrangements were completed today by Hilgenfeld and Rollins, of Anaheim, for the funeral tomorrow afternoon at 2 o'clock of the Rev. Frederick Belzer, whose death at the age of 91 occurred yesterday at his home in Los Angeles. Services will be conducted by the Rev. J. Scherbacher in the Los Angeles Evangelical church at Twelfth and Hope streets, with burial to be made in Rosedale cemetery.

The Rev. Mr. Belzer had been an Evangelical minister in North Dakota for many years, retiring only ten years ago, when he came to Southern California to make his home. He was well known in Orange county.

He is survived by three daughters, Mrs. H. W. Horn, of Los Angeles; Mrs. Carrie Dick, of Oakland, and Mrs. Sarah Jung, of North Dakota; three sons, Louis and Clinton Balzer, of North Dakota, and Arthur Balzer, of Los Angeles; 13 great-grandchildren, and one brother, the Rev. Peter Balzer, also a retired Evangelical minister.

At the Sunday morning service he will talk on "The Power of His Might." In the evening the subject will be "The King's Business."

## FIRST LADY IS FIRST

Charity, it's said, should begin at home. So when President Coolidge, official head of the American Red Cross, opened the twelfth nation-wide drive of the organization, he turned first to the nation's first lady. Here you see Mrs. Coolidge receiving a Red Cross button from the president while Judge Barton Payne left, national chairman, doubtless reflects that the great humanitarian campaign is getting an excellent start.

SUNDAY SCHOOL  
CONVENTION IS  
GIVEN PRAISE

The Santa Ana council of religious education today had expressed in a resolution to the Southern California council its hearty appreciation for the privilege of entertaining the 39th annual Sunday school convention here.

A committee composed of L. Edgar, R. C. Smedley and Stella Graff drafted the resolution, which said in part,

"The program offered by this convention was one of exceptional merit and calculated to bring help and inspiration to all who attended it and our local board is happy to have had a part in presenting it to the public."

"Our thanks are due to the churches of Santa Ana, and their workers, who so faithfully and loyally aided in caring for the sessions of the convention, in providing luncheons and other facilities for the good of the meeting. Particularly to the First M. E. church, by providing the headquarters for the meetings of the convention should thanks be given.

To the newspapers of Santa Ana and Orange county, for their generous allowance of space, we express our appreciation.

"To the citizens of Santa Ana, who opened their homes, and who co-operated in many ways to make the convention a success, we extend our thanks."

Committee: S. EDGAR, R. C. SMEDLEY, STELLA GRAFF.

Elks' Deputy At  
Orange Gathering

ORANGE, Nov. 22.—Nearly 100 members of the B. P. O. E. were present at the Elks hall here last night on the occasion of the visit of the district deputy, W. C. Jerome, of Santa Ana, to the lodge.

Talks were given by Jerome and by Stanley Reinhaus, of Santa Ana.

Between 15 and 20 visitors were present from Santa Ana. A bandyville program was presented by a group of artists from Los Angeles. Refreshments were served.

## Mrs. Flagg Presents One of Season's Smart Parties

That charming California custom of sending flowers to hostesses on the day they are entertaining, was delightfully expressed yesterday, when Mrs. A. H. Flagg greeted scores of her friends at a beautifully appointed luncheon and bridge at Santa Ana Country club. For her friends, knowing her chosen decorative scheme of autumn's bronze and gold, literally showered her with the choicest blooms of their gardens in those rich shades.

The effect of the cleverly arranged tables at the luncheon hour, was delightful. Long narrow baskets spilled their yellow and rust-colored blossoms over the white linen, and at each place was a spray of chrysanthemums whose bronze tones meshed into the brilliant colors of maple leaves which sprinkled the cloth. At intervals, tall tapers rose from feathered holders whose brown outer petals shaded by degrees into the yellow tones of the candles. The idea of the candle-holders was repeated in the nut-cups, each mounted on a bronze autumn leaf, and place cards, in soft buff tones, were attached. Mrs. Flagg's brother, Frank T. Long, of Richmond, Ind., had sent the autumn leaves, which aroused little waves of homesickness in many eastern hearts.

Mrs. Flagg was gowned in soft crepe satin in a golden brown which completed the charming color effect. In receiving and entertaining her guests, she had the assistance of a group of friends, including her own daughters, Mrs. J. Riley Huber, (Margaret Flagg) and Mrs. James Duggan, formerly Miss "Jimmie" Flagg, whose wedding was an event of recent date.

Others assisting in various ways included, Mrs. B. J. MacMullen, Mrs. J. N. Bartholomew, Mrs. William L. Delmeling, Mrs. Robert Tuthill, Mrs. Frank Sawyer, Mrs. Leonard G. Swales, Mrs. W. B. Williams and others.

Score cards distributed for bridge at the close of the luncheon, were in buff tones and bore the same crest which had distinguished engraved invitations to the function. The tales revealed by the cards at the close of the afternoon, showed Mrs. O. H. Egge as victor, Mrs. G. J. Daley, second, Mrs. Irwin F. Landis, third, and Mrs. A. S. Ralph, low.

Gifts were wrapped in the bright-colored transparent paper so much the vogue at present, each tied artistically with clusters of flowers or fruits in vivid hues. They ranged from the charming pottery candlestick and decorated candle in the consolation gift, through a brilliant salad set of bowl, fork and spoon, and a Chinese brass bowl, to the beautiful vase of enamel on brass, which fell to the lot of Mrs. Egge.

One of the pleasantest features of the afternoon was introduced while scores were being tallied, when Miss Mary Elsa Hoffman, charming Hollywood friend of the hostess, gave amusing little musical readings. These included "Foolish Questions," "Is Marriage a Failure?" and "April Fool."

## Santa Ana Women Are Guests at Tea

Mrs. D. A. Harwood of 814 South Birch street was hostess yesterday to Mrs. C. H. Worswick, Mrs. H. F. Towner and Mrs. Sevren Schulte at a delightful bridge party held in Los Angeles by the Mothers' club of the Theta Psi fraternity.

Mrs. Harwood's two sons, Chad and Don, who are students at the University of Southern California are both members of the fraternity.

Mrs. Worswick was the holder of highest score at bridge and was presented with an attractive gift.

ANN MEREDITH'S

## MIXING BOWL

Moderation is The Keynote of Health

The difference between good health and poor health lies not in food fads acent the use of hot foods, eating only one article at a meal, etc, but in MODERATION. The ordinary stomach is fool-proof but the ordinary mind, supposed to exercise judgment, is not.

Hot biscuits are a good food in moderation but a poor food when eaten to excess. All of which leads up to a dinner suggestion: Serve Stuffed Cauliflower, a green salad and dressing, and top the dinner off with the nutritious Daytona pudding, utilizing evaporated milk.

### DAYTONA PUDDING

1/2 cups creamed flour  
2 teaspoons baking powder  
2/3 cup of sugar  
4 tablespoons butter  
1/2 teaspoon salt  
1 egg, well beaten  
1/2 cup evaporated milk  
1/2 cup water  
1/4 cup browned walnut meats

Silk flour, salt, and baking powder. Cream butter and sugar, add beaten egg and mix well. To this creamed mass add the flour and liquids alternately fold in the nut meats, and bake in a shallow buttered tin, medium oven. Serve with lemon-raisin sauce. This is just a thin clear lemon sauce with a half cup of whole raisins added and allowed to steam for 15 minutes.

### TODAY'S RECIPE

Stuffed Cauliflower

1 large firm cauliflower  
1/2 pound minced round steak or minced veal

2 tablespoons minced beef suet

Salt and pepper

1 tablespoon minced parsley

1 teaspoon minced chives or grated onion

1 small can mushrooms (optional)

2 cups thin gravy

Wash and prepare the cauliflower by halving the head apart and parboiling the flowerets in salt water for 3 minutes. Drain.

Select a small deep, sauce pan, just large enough to hold closely the flowerets after they have been arranged, flowers down, to again make a head. The meat and suet and quickly seared and scattered over and between the steams. The seasonings are added, the gravy is poured to partially cover the cauliflower, the pot is covered and gentle cooking is used until the cauliflower is very tender.

Turn the saucepan upside down and the cauliflower will be found standing in a savory meat sauce.

Canned mushrooms add to the cost but for special occasions they are a decided addition to this unusual way of cooking cauliflower.

The gravy for this occasion can be made from bouillon cubes and I prefer the "chicken broth" flavor, using 3 of them to 2 cups of liquid.

There are four portion in this recipe whose calory total is a bare 600. Baked potatoes might be served with the stuffed cauliflower, and the heavy calories might be left to the dessert. That is why I suggested using Day-tona pudding.

What's in a CAN of CONDENSED MILK? Delicious hot and cold drinks, nutritious hot dishes, delectable desserts, both hot and frozen. A stamped, self-addressed envelope brings the leaflet to you free of charge this week.

TOMORROW we will have Hall-but au gratin. If you want this fish for tomorrow's dinner, buy and boil a pound-slice of halibut in the morning and look for the recipe in this Mixing Bowl corner tomorrow.

ANN MEREDITH.

## Dillon-English Nuptials Held at Christian Church

The First Christian church at Sixth street and Broadway was transformed into a bower of loveliness last night when quantities of fall flowers and maiden hair fern were used to decorate it for the wedding of Miss Velma Dillon, daughter of Mr. and Mrs. Thomas Dillon of 208 South Parton street, and Harold English, son of Mr. and Mrs. John English, also of this city.

Miss Dillon's brunet hair was dressed by her white satin gown of bouffant style worn with a long tulip veil which was caught to her head with a band of orange blossoms. She carried a bouquet of roses and lilles of the valley with maidenhair fern.

Miss Charlotte Harnois, who was Miss Dillon's only attendant, wore a becoming frock of apricot georgette with accessories to harmonize, and she carried a bouquet of sweet peas. Gerald English, cousin of the groom, served him as best man.

The Rev. W. S. Buchanan, new pastor of the church, who came to Santa Ana this week to replace the Rev. F. T. Porter who has moved to Los Angeles, read the impulsive marriage service.

Miss Carrie Seaton, organist at the church, presented the musical program which preceded the ceremony. It included "Twilight" and "I Love You Truly." She also played the wedding marches as the bridal party entered and left the church.

Following the ceremony a reception was held. The affair took place in the community house which had been decorated with baskets of chrysanthemums in tones of gold and bronze. Appropriate refreshments were served.

For a honeymoon trip to Big Bear Valley, the bride donned smart little sports suit of brown with coat, hat, and other accessories to match.

On their return to Santa Ana, Mr. and Mrs. English will establish themselves in the attractive little home which was their wedding gift from Mr. English's parents. Furniture for the home was given to the twelve patrons asked were secured.

Reports from King's Herald band and Little Light Bearers were given by their respective leaders, Mrs. Alrich and Mrs. Raymond.

Mrs. English is a graduate of the Santa Ana high school where she was one of the most popular students. For the past two years she has been employed in the tax collector's office. Her husband is also a Santa Ana high school graduate, having starred in athletics while there. At present he is assisting his father in managing the English ranch which is located west of Santa Ana.

## Negro Choir to Give Varied Program

Lovers of Negro music will find a treat awaiting them tonight at the First M. E. church auditorium, where the Negro choir of Los Angeles Second Baptist church will present a program as good for the local colored church.

Spirituals as only the Negroes can sing them, camp meeting songs of the old South, and lovely old melodies of Dixie will be included on the program, which will begin at 8 o'clock. Choruses, solos, trios and quartets will vary the program, while to add further variety, there will be an accomplished reader in the group of entertainers.

The aim of this committee is to make all newcomers feel at home in Santa Ana.

**Friendly Tea**

The Thanksgiving Tea sponsored by the Woman's society of the First Baptist church was enjoyed by a large number of women Wednesday afternoon in the church parlor.

The room was made bright by large baskets of autumn leaves and berries.

The success of the occasion was due to Miss Ida Nay, who with her committee had planned the program, but Miss Nay was unable to be present on account of illness.

After a stanza of "America" those present answered to roll call by using their initials in a humorous sentence. An original song composed by Miss Ida Nay and telling all about saving our pennies was sung by Mrs. Leslie Pearson and Mrs. Kenneth A. King with Mrs. Spencer Elliott at the piano.

The company was divided into four groups and each group composed a poem for Miss Nay. These were later sent to her.

**FRIDAY**

## Dinner Meeting Held By Adult Education Department

The Adult Education department of the Santa Ana public schools held a dinner meeting at Ketner's Wednesday evening. Mrs. Golden S. Norwood, director of adult education, presided.

Reports were given concerning the work of the department this year, and a number of suggestions and plans were made for the future. It was decided to continue the classes during the Christmas holidays as so much interest is being manifested in them. Those present expressed pleasure in the chance given them for discussion of different phases of the work and it was voted to have such a meeting once a month.

Those present were J. A. Crans- ton, Mrs. Golden S. Norwood, H. D. Drake, B. Archer, Mrs. Bessie Harter, Mrs. Hayden, Mrs. Mabel Wright, Miss Mildred Deebach, Miss Ruth Frothingham, Mrs. M. V. Reid, Mrs. Edith Ritter, Miss Florence Moreland.

## CHURCH SOCIETIES

### Missionary

A most delightful afternoon was enjoyed by the members of the Women's Foreign Missionary society of the First Methodist Episcopal church at a meeting of the auxiliary on Wednesday, when a number of those who were fortunate enough to have attended the general executive held in Los Angeles recently, told of that meeting.

Those who reported were Mrs. W. C. Baker, Mrs. D. J. Palmer, Mrs. Sarah Hutchins, Mrs. McLeod, Mrs. W. J. Saunby, Mrs. Fred Wagner, Mrs. Laura Leonard, Mrs. E. D. Van Nest and Miss Blanch Collings.

Mrs. Adah Thompson of West Seventeenth street, left yesterday for Jacksonville, Fla., to visit her son, the Rev. J. M. Foster, as the result of an automobile accident. The Rev. Mr. Foster had been pastor of the Reformed Presbyterian church in Boston for over 30 years.

Terry Stephenson, Santa Ana postmaster, left last night for San Francisco where he will attend a reunion of editors of the Stanford Daily, formerly called "Daily Palo Alto." J. R. Nourse, editor of the San Francisco Examiner, and John P. Nourse, judge of the appellate court in San Francisco, both former Santa Anans, will be present at the reunion. Mr. Stephenson will attend the Big Game at Berkeley Saturday.

Clarence Sprague, a sophomore at Pomona college, is spending this week here with his parents, Mr. and Mrs. E. B. Sprague of Victoria drive.

H. M. Baade of Tustin is enjoying a week's vacation in San Francisco. While in the north, he will attend the Stanford University football game.

The first of this season's meetings of the Men's club of the First Methodist church was held Tuesday night at the church. The evening's address was given by the Rev. Harry White of Burbank. Several other interesting numbers were presented on the evening's program.

At a short business meeting it was decided to appoint a committee to invite strangers and newcomers to Santa Ana to attend services at the First Methodist church. Those having other church preferences will be introduced to the pastor of that church.

The aim of this committee is to make all newcomers feel at home in Santa Ana.

### Friendly Tea

The Thanksgiving Tea sponsored by the Woman's society of the First Baptist church was enjoyed by a large number of women Wednesday afternoon in the church parlor.

Mrs. D. H. Crawford, at one time a resident of Santa Ana but who has lived in Illinois for the past nine years has returned to California and is now living at 118 East Washington avenue, Orange.

Stanley Reinhaus will leave Friday for Berkeley to attend the big game.

R. G. Cartwright, local representative of the Travellers' Insurance company, motored to Long Beach today where he attended a luncheon at the Pacific Coast club, held in honor of the vice president of the company.

The company was divided into four groups and each group composed a poem for Miss Nay. These were later sent to her.

## SMELTZER

SMELTZER, Nov. 22.—J. A. Murdy, who has been having a touch of influenza, is much improved.

Mr. and Mrs. Wilfred Lewis, accompanied by their niece, Dorothy Dimock, motored to Los Angeles Sunday to visit Mr. Lewis' mother, Mrs. Laura Lewis, who is recovering from a broken limb.

Mr. and Mrs. Harry Woodington and Mr. and Mrs. Jake Grana were guests in Los Angeles in the home of Mrs. Grana's sister, Mrs. George Soude, who gave a surprise dinner for Mr. Soude, who was celebrating his birthday anniversary.

Carmel Grana, of the U. S. S. California, was a Sunday visitor in the home of his parents, Mr. and Mrs. Jake Grana. He motored over from San Pedro in company with Mr. and Mrs. Warren and Mrs. Warren's sister, friends from Los Angeles.

The baby son of Mr. and Mrs. Vernon Hell took the chickenpox Sunday. Bobby Hell, who has been out of kindergarten for some time while having the same disease, returned to school Monday.

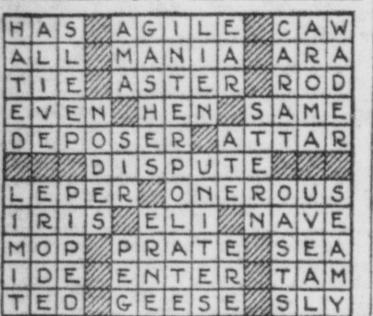

Mr. and Mrs. Charles Parr and family and Mr. and Mrs. C. B. Baxter and family, of Westminster, attended a theater in Santa Ana Saturday evening.

Mrs. Ethel Holsclaw attended the funeral Monday morning of Miss Fanny Hasty in Santa Ana.

A new electric pressure system is being installed by the Aldrich Land company to replace the motor and water tank, the latter of which was totally wrecked last week when the frame of the tank gave way, letting it fall.

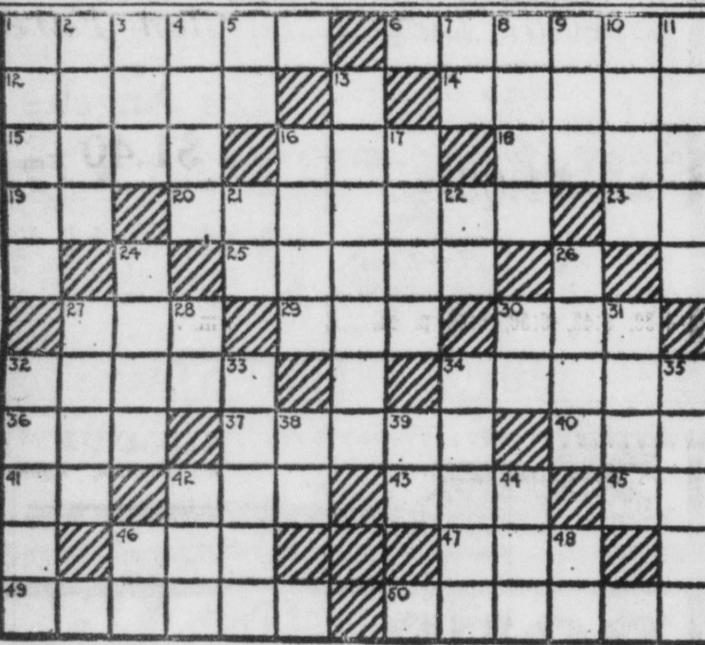

The pressure system which will again supply all of the residents of Smeltzer with water is being installed by Roy Skiles, of Santa Ana.

## WINTERSBURG

WINTERSBURG, Nov. 22.—Several representatives from the Wintersburg Missionary society attended a missionary meeting held Tuesday evening in Costa Mesa, among those going from here being the Rev. and Mrs. Joseph Pope, Mrs. L. S. Moore, Mrs. C. E. Pratt, Mrs. Sherman Buck.

The first meeting of the Wintersburg Men's movement since the election of officers was held Tuesday evening at the Wintersburg community hall and the new officers were informed as to their duties. The Rev. Joseph Pope is president of the organization; J. M. Peavey, vice president; Ernest Fox, secretary and treasurer; W. T. Vandruff, chairman of the program committee; Harry Letson, refreshment committee.

The second Monday evening of the month was set as the time for the executive committee to meet to arrange for the usual third Tuesday meeting of the civic society.

# TELEVISION IS STILL IN STAGE OF EXPERIMENT

(Continued from Page 6)

build a road through space broad enough to accommodate the necessities of visual transmission. We can use a "side-band" of 5000 cycles for sound transmission, but we need a wave band of somewhere between 20,000 and 100,000 cycles or even more for visual broadcasting or continuing public interest. Nor is this the only problem which television faces.

The problem of radio television is best visualized in considering the vast differences between the ear and the eye.

Electric and other modern means of covering distances have made the feet a secondary means of locomotion. The electric switch, the generator and the motor are coming very largely to take the place of the human hand. Radio and the wired telephone have extended enormously the range of human hearing.

But consider the eye.

With all that science, discovery and engineering have accomplished in equipping man for the struggle of life, the eye still looks out naked upon the world, aided to a limited extent by pieces of curved polished glass. A sensitive photographic apparatus, the eye demands that every scene be contracted to its limited field of vision. It tolerates but little indifference. Shake a feather before the eye and you blot out the view of a mountain. Project two views simultaneously and you create confusion before the sight. Distort a picture and you destroy its recognizable elements.

Ear Much Different

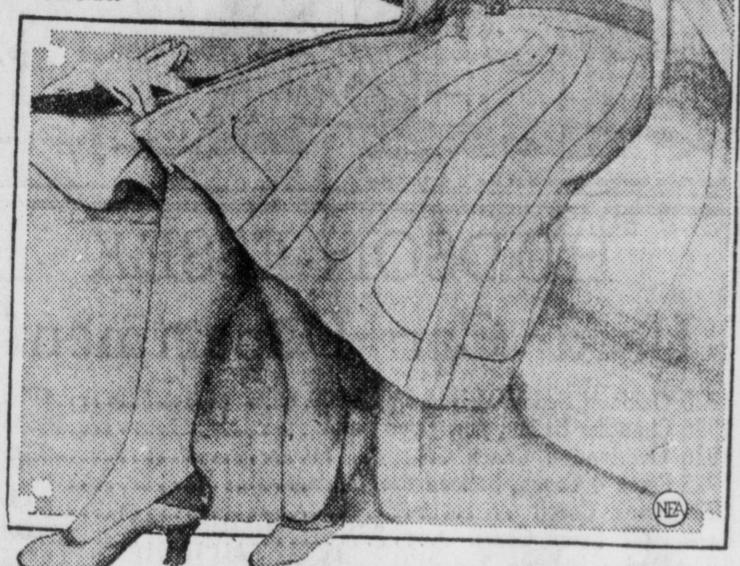

Now contrast this to the ear. The ear receives sounds from all directions. It is able to recognize and interpret the slightest tonal differences. By an act of concentration we can almost eliminate from consciousness the noise of a room full of people and conduct a conversation with a single auditor.

Radio broadcasting found a pliable and sympathetic organ of reception in the ear. The ear will stand for a considerable amount of noise interference, both natural and mechanical, with only a moderate loss of musical or tonal values. Thus we have been able to overcome great obstacles to sound transmission by going over or around them. And so the sound of music may be heard over the roar of interference registered in the vacuum tubes.

But in attempting to serve the eye radio stands squarely before the fundamental problems of electro-magnetic wave propagation through space. Engineering solutions alone will not suffice to lift the bandage that has limited human vision. A sudden blur of in-

## FLARES INTO CHIC

The gored skirt makes its chic appearance in the beige charmeuse frock of a Maison Beer traveling ensemble. Each gore is emphasized by an outside seaming. The beige coat is cut full, is reversible and can be very gay with its green and beige striped inside worn outside.

## SCIENTISTS TO VIEW ECLIPSE ON EXPEDITION

eclipse, this year they have to go to Malaya.

The track of the 1929 eclipse cuts across the northernmost portion of French Indo-China, and the Philippine Islands, and ends in the Pacific Ocean.

Col. Waley Cohen, a member of the expedition, has inspected the sites for two camps. These are situated at Alorstar, the capital of Kedah, and Patani, in southern Siam.

Already, the grounds of the observatory here are crowded with equipment such as huts and wooden shelters to protect the scientists from wind, rain and sun. In one corner, swathed in tarpaulins, is the telescope which Dr. J. Jackson, one of the leaders of the expedition, had specially made for his own use. It is 21 feet in focal length, with an aperture of 7 inches. It will take plates 15 inches square and photograph an area of the three degrees in width and three degrees in depth. The astrophotographic equatorial telescope used for the international photographic mapping of the skies will also be taken.

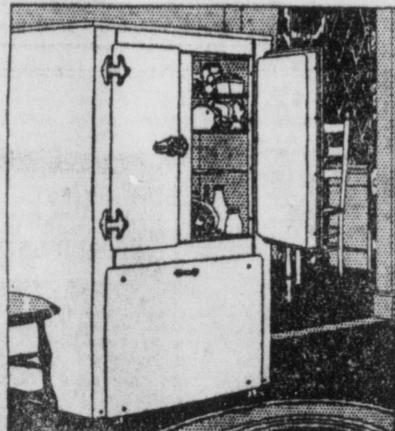

Within three to five years, however, I believe we shall be well launched into the dawning age of sight by radio, involving the following developments.

The advance party of the expedition sailed for Malaya, February 15.

## JAPANESE GOES ON TRIAL FOR MANSLAUGHTER

Charged with manslaughter in connection with the death of Frankie McGuire, 7, of Huntington Beach, Masso Kobayashi, Los Angeles, went on trial today in Superior Judge James L. Allen's court with Chief Deputy District Attorney L. W. Bludget representing the people.

The young McGuire boy met his death several weeks ago when the car in which he was riding was struck by a vegetable truck driven by Kobayashi one and one-half miles south of Talbert on the Huntington Beach-Santa Ana road. The boy was riding with his grandparents, Mr. and Mrs. George Bradley, of 233 First street, Huntington Beach, who were slightly injured.

According to a report on an investigation of the accident, made by Deputy Sheriff Steward and Hubbard, who arrested Kobayashi, the Bradley machine, headed south, had stopped on the extreme right side of the road with two wheels off the pavement. The truck, coming from the south on the wrong side of the road, crashed headon into the small car, turning it over. It was said.

Selection of the jury which will hear the evidence in the Kobayashi case was completed shortly after 11 a. m. today.

Frankie McGuire was the son of Frank McGuire, Huntington Beach school bus driver.

## FRENCH PORTIA SAYS FIDELITY NOT EXPECTED

PARIS, Nov. 22.—(UP)—Easier divorce and the education of young French girls in the expectation that when they marry their husbands will not be constant to them are the astonishing antidotes suggested by the well known French Woman lawyer, Maitre Lucile Tinayre, from France's marriage problems.

She believes this would prove more efficacious than "trial marriages."

"Whether there is a trial marriage or not, the husband in France would act as he most often does, be unfaithful sooner or later to his marriage vows," the handsome and intellectual Portia said in an interview here. "The statistics are there to prove. Usually the cooling off occurs between the fifth and sixth year of marriage. Statistics show that 76 per cent of divorces occur then."

Because of the too complicated nature of divorce laws which keep unhappy couples tied together who would rather be free, she would reform the legislation. Adjustment by making divorce more easy would allow the marriage failures being conveniently ended to be replaced by successful unions, she holds; a higher standard of morality would result; while, crimes of passion and vengeance would probably also decrease.

"Many of my colleagues of the French bar are with me in believing that this way lies the solution, rather than the 'five years' test' which I understand is being advocated by some sociologists in America.

"We should still be conserving marriage, because people who are happily wed will remain so whether or not the bonds are made more easily broken.

"As it is at present, one of a wedded couple can keep the other tied for twenty years, for life, simply by refusing to agree to a divorce. And when a husband or wife goes away with a third party and the offended party refuses to take action the lives of at least two persons are ruined. As well as making divorce easier, I would tell girls the truth—that they should not expect a husband to remain constant.

WESTMINSTER

WESTMINSTER, Nov. 22.—The Westminster ball team played its first game of the season last Sunday at the Midway City ball park located on the Zenith Aircraft corporation's flying field, and was victorious in the game. The locals played the Independent team of Los Angeles, the score being five to one.

The Westminster lineup was as follows: Pitchers, D. Huddleston and F. Page; catcher and captain, John Willingham; first base, Frank McGuire; second base, Francis Penhall; shortstop; Ben Page; third base, Scotty; center field, Valente; left field, C. Campbell.

Next Sunday's game will be played on the home field with the Ortiz-Ford team of Los Angeles. The local team will play each Sunday at their own field.

A benefit dance is planned in the Bolsa clubhouse Saturday evening.

Mr. and Mrs. Tanard are moving Thursday of this week to Whittier and the same day, Mr. and Mrs. George Milholland and family, who recently came from the east, will move to the house they are vacating.

Mr. and Mrs. F. Klein knight entertained their daughter, Miss Dorcas Klein knight, of Laguna Beach, as an overnight guest Monday, and on Tuesday their son, Robert Klein knight, of Ventura, spent the night with them.

## EVENING SALUTATION

Happy the man who so hath Fortune tried  
That likewise to her poor relation knows:  
To whom both much is given and denied:  
To riches and to poverty he owes  
An equal debt: of both he makes acquist,  
And moderate in all his mind he shows.  
—Richard Watson Dixon.

## STILL PAYING ON THE MEXICAN WAR

According to the report of the Commissioner of Pensions of the Federal Government, the Department is still carrying on its roll two pensioners of the War with Mexico, one of whom is 97 and the other 100 years old. The Mexican war ended in 1848. The total number of enlisted men in that war was 107,637. Thus for 82 years the Federal Government has been paying pensions to those engaged in that war, a war waged for the extension of the slave power, but adding to our territory the states of California, New Mexico, Arizona, Utah, Nevada, and Colorado.

If the same proportion holds good, out of the 2,128,948 who engaged in the Civil war we shall be carrying 39 on the pension roll in 1947; out of the 280,564 engaged in the Spanish war we shall be carrying 5 pensioners in 1971; and out of the 4,060,000 engaged in the World war we shall still be carrying 72 pensioners in the year of 2000. To these should be added 970 widows of soldiers of the Mexican war still on the pension roll, and 17 widows of the War of 1812. If the same proportion holds good for other wars, there will be many more widows than soldier pensioners in 1947, 1971, and 2000.

The cost of a war drags on through many generations, not only in the payment of pensions, but in other forms of soldiers' relief, in interest on war debts, and for other obligations incurred during a war. The total war costs of the government in 1927, including the upkeep of the army and the navy was approximately \$2,157,000,000. Of this \$1,478,000 was for pensions, the Veterans' bureau, and interest on the public debt. The total expenditure of the government was about \$3,400,000,000. This cost of military establishment does not include other items like the cost of the National Guard paid by the states, and the relief granted by the states to soldiers and their widows, and the debts incurred by the states in times of war. To think of two thirds of our national expenditures going to defray the cost of war in the past and the preparation for war is staggering to contemplate. For over a hundred years the burden of past wars will continue on us. Is it reasonable to suppose that there is not a better way out of our differences than by such huge expenditures for arms and the consequent results of their use?

A picture of Charley Dawes and Charley Curtis standing on the capitol steps the other day reminds us that where Dawes used to tear the hides off the Senators, Curtis probably will only scalp 'em.

## SUPPORT IT, THE MONEY ALL GOES TO THE CAUSE

A few days ago we published an editorial in which we commended the plan of the Community Chest in that the money contributed goes directly to the cause and it is not solicited for some other ostensible object which must be provided for before the cause is aided. We cited lectures, plays, dances, balls and card parties used as a guise for raising funds, but in which cases after the expenses are paid, only a portion of the money finds its way to the cause itself.

Occasionally there is an exception to this rule and we find a happy combination made where the expenses are entirely taken care of by interested friends so that the contributor or purchaser may know that no portion is side-tracked into other channels in which the giver is not interested.

The Military Ball to be held on the evening of December 5, in the interests of the Disabled Veterans Welfare Association is a case in point. In one way or another friends have so met the needs and emergencies of that association that all costs for this ball are provided without a solitary dollar of the amount received from ticket sales being used for expenses. The ones who are patronizing this worthy function may know that every dollar that is paid for the purchase of tickets goes to the cause itself. This is gratifying and the organization deserves this word. The provisions for the entertainment and the expenses in every way are being looked after by those who have special interests in the organization; and while everyone will receive full value in the enjoyments of the evening the unusual condition will prevail that the total amount received goes to the Disabled Veterans' organization. The people directing the Military Ball have obviated the difficulties completely and all who possibly can should do their part in the purchase of tickets and in attendance to the end of making it a grand success.

Maybe one of the reasons Al Smith lost was that the Scotch balked at his liberal program. Strange things are happening in this presidential year. Yesterday we saw the headline, "EGGS RALLY AFTER BREAK."

## THE GINGHAM DOG AND THE CALICO CAT

"Peaches" Browning is suing her erstwhile husband for her dower rights in his large real estate holdings.

We cannot register any joy or sorrow in the success or failure of this suit. The marriage was a travesty upon such a sacrament. It was a frank sale by the girl and her mother to Browning for a chance at his millions. It was the bargain of a desirous old man for a good looking girl of sixteen.

It looks from this distance as if they both lost in the bargain. If it would deter others from the same sort of bargaining, we hope they did both lose. If we could make the punishment fit the offense, we would make them live together.

## PRACTICAL RESULTS IN PLANNING

The translation of idealism into practical reality has been provided for by the State Planning Act of California, which became a law in 1927. It is a carefully studied measure, enabling counties to establish official planning commissions and thereby formulate and adopt master plans of development for present and future guidance in public works and undertakings of the county.

Santa Barbara county is now functioning under the act. Other counties of the state, we understand, are preparing to take advantage of its provisions. For several years Los Angeles county has had a regional planning commission, established by ordinance of its board of supervisors under that county's charter form of government. We believe Orange county should take her place with sister counties in providing for a harmonious development based upon a survey of future trends in population and in industrial, agricultural, and residential growth. Such result could be possible without a planning commission, but the probability of accomplishing it would be increased by having one.

Under the planning law the board of supervisors would create by ordinance a commission of six members. The personnel would be made up of private citizens—men, women, or both. The members of the commission would be selected with the definite purpose of securing the services of citizens broad in vision of county unity, and whose personal integrity, resourcefulness and ability specially mark them as leaders in public thought. By all means such a commission should be independent of political influence. They necessarily would be citizens who could afford to give time to the work, because the law provides that they receive no salary or other compensation. The chairman of the board of supervisors, the county engineer and the district attorney would be additional members of the commission by virtue of their respective offices.

After the appointment of the commission it would begin the serious business of planning. It would call to its aid the most available and expert services of men whose life's work is devoted to the subject. For such services the commission is empowered to enter into compensatory arrangements. When the master plan is completed, notices are given for public hearings, and many of such hearings are held before the master plan is adopted and recorded. After its adoption, the master plan can be modified by a four-fifth's vote of the supervisors, thereby becoming sufficiently flexible to meet later contingencies. In the first instance, the plan must be approved by the board of supervisors and is closely associated with the views of the people as a whole. It would take probably six months to a year to complete the master plan.

County planning is in reality a means of assisting the board of supervisors in its work. Thus the board, in establishing the commission, gives up none of its existing powers, but merely calls to its aid a medium through which the opinions of the people can be ascertained and given official sanction.

Practical and economical results can be obtained by the inauguration of county planning.

A systematic plan would enable each citizen to make his contribution to the orderly development of the community and county in which he lives and to which he looks for the securities of citizenship.

In more specific purposes, county planning would be the means of crystallizing public sentiment for the necessity of water conservation, for wider and more efficient avenues of transportation, for larger needs in public parks and recreation, for beautification and utilization of natural resources, for the dedication of ocean frontages to public enjoyment, for engendering a greater cooperative spirit between local communities, and for other notable economies in all public endeavors.

## Uncle Sam Comes Into His Own

New York Times

Troy is to have a monument to Uncle Sam. He certainly is as much entitled to one as John Bull or John Chinaman—perhaps even more entitled, for they are fictitious characters, while he, like Brother Jonathan, is at least founded on fact—if Trojan history is to be believed.

There is some confusion about the story. According to Frost's Naval History of the United States, there was a Government inspector at Troy during the War of 1812 named Samuel Wilson. A contractor named Elbert Anderson came there to purchase provisions for the Army, which were put in casks marked "E. A.—U. S." One of Wilson's employees, puzzling over the initials, and recalling his employer's nickname, said they must refer to "Elbert Anderson and Uncle Sam."

There are several slightly different versions of this story, and one high authority (Webster's New International Dictionary) says it "lacks proof." Perhaps it will be forthcoming from the ladies of the Troy chapter of the Daughters of the American Revolution, who have undertaken to erect the monument at Mr. Wilson's grave. He died in Troy in 1854.

## Gila Monsters and Tortoises May March

San Bernardino Sun

A professor at the University of California has discovered that the construction of the Boulder dam is to do various things to animal life. The fate of the beaver, otter and muskrat is sealed. The impassable barrier that has turned back the tortoises and the Gila monsters since time immemorial will disappear. The professor argues that it is probable that canals will do away with necessity for water in the river, and the calamities to wild life will result.

This is the frightful verdict of science: "The Gila monsters of Arizona, heretofore strictly limited to the territory east of the Colorado river, will, in a long-time sense, pour over into California, and so on with at least 16 other species of terrestrial vertebrates."

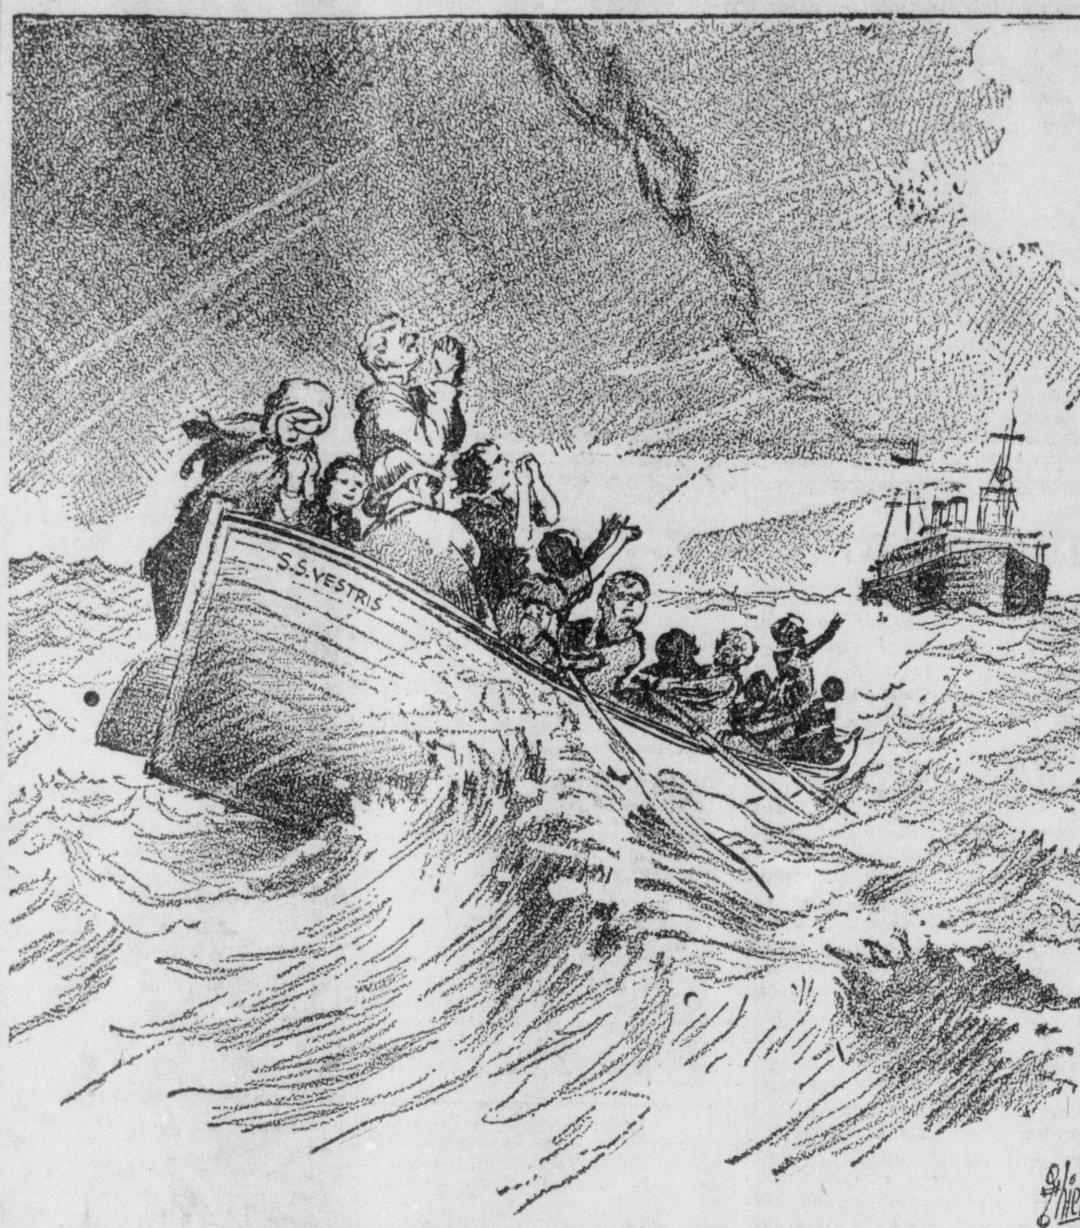

It is sad, but probably true. But California will agree to worry along with a few Gila monsters and will not charge Arizona anything for the desert tortoises that are no longer baffled in their march toward the East. The beaver and otter have not been important on the Colorado river since the generation of Jedediah Strong Smith.

## Santa Ana Register

SUBSCRIPTION RATES—By carrier: \$7.00 per year \$3.75 for 6 months; 65¢ per month. By mail, payable in advance in Orange county: \$7.00 per year; \$3.75 for 6 months; 65¢ per month; outside of Orange county: \$10.00 per year; \$5.25 for 6 months; 90¢ per month; single copies, 3¢. Entered in Santa Ana post office as second class matter. Established November, 1905. "Evening Blade" merged March, 1918; "Daily News" merged October, 1923.

## Their Thanksgiving Day

## More Truth Than Poetry

By James J. Montague

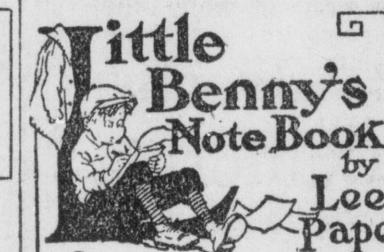

## THRILL

There was little real thrill in the movies: When the villain—poor devil—was shot  
And lay writhing around on the cactus clad ground  
You were perfectly sure he was not.  
His silence was hardly convincing.  
You said to yourself: "He ain't dead."  
And you still were in doubt when the scene faded out  
And you saw what the subtitle said.

The speaks may prove more persuasive:  
When the death dealing bullet has flown  
And the brave fellow reels and falls head over heels  
You can hear his last sad hollow moan.  
But you know it is only a picture  
Which has all been arranged and rehearsed  
And you view it askance, for there isn't a chance  
To sit there and hope for the worst.

The old fashioned drama was different.  
For a cartridge might sometimes explode  
Or the hero might make an unlucky mistake  
And let go with an actual load.  
The figures you saw were not shadows  
But real living palpitant men  
And your fancy was caught by the harrowing thought  
Of an accident now and again.

By adding the voice to the movies  
They have given them rather more thrill  
The ear now supplies some small help to the eyes  
But we miss the old breathless stuff still.  
I welcome a great innovation  
And yet do I boldly assert  
That a play has more pep when a single misstep  
Is likely to get someone hurt!

We was all in the living room  
and everybody was tawking about  
Gladdises wedding as usual, and  
Gladdis was tawking kind of ner-  
viss on account of never having  
been married before, and I had a  
ideer, saying, Well hay, G wizz  
Gladdis, aint you scared to get  
married on Sattiday?

Why should I be, wats all this  
hocus pocus? Gladdis sed, and I  
sed, Nuthing, ony Sattiday is sup-  
pose to be a unlucky day for peo-  
ple to get married on, aint it?

Centyen not, I mean I never  
herd of any such superstition, but  
my stars now I come to think of  
it I bleeve there is an old saying  
about Sattiday child or Sattiday  
weddings or some such thing, iz-  
zint there, mother? Gladdis sed.

I dont bleeve so, I dont think so,  
and wat if there was, wat do we  
care about old sayings in this age  
of scientific management? ma sed.  
Ive got a good mind to give Benny  
a good harty slap for bringing up  
such a crazy subjeck at this late  
date, she sed.

Well of corse Im not superstitious,  
but of corse I woulent want  
to think there axually was any such  
saying or proverb or anything.  
Gladdis sed, and I sed, Well you  
cant. Nobody can't do nothing  
with me," and he stuck his hands  
in his pockets and surveyed Rose  
Marie with distinct pride. She  
eyed him with calm contempt.

"I don't see what they want to  
do with you but if MY mother  
had you I know shu could do  
something with you?"

"What? Your mother couldn't do  
anything with me either. I'll fix you,  
Rose Marie, for saying that," and  
he lunged at his friend, lost  
his wide spread footing, fell face  
foremost into the barberry hedge  
and lay there kicking like a rabbit.

Mother Rose Marie came swiftly,  
yanked him up by the heels, swung  
him to her side of the hedge and  
ran him across the grass and into  
her house before he could gather  
breath for the second yell.

"Now young man, you've been  
needing a good lesson and this is it,"

and she washed him and she  
washed him with cold water full in his face  
and well up his arms until his  
belligerency melted into quiet  
weeping.

"And now, you're going to school,  
and you're going to behave. You'll  
find I can always do something  
about you. You let Rose Marie  
alone. And stop pestering your  
mother. Well attend to you if  
there is any more of this."

He marched off to school under  
the watchful eye of Mrs. Rose

## TERMAN ON THE BRIGHT CHILD

We are all sure that our children are bright.  
All of us who are parents should, therefore, read with eager interest what Professor Lewis M. Terman, distinguished Stanford psychologist, has found out about bright children.

Here are some of the things that have emerged from his painstaking researches:

You cannot tell the brightness of your child by his school marks alone; he may be bright but lack ambition; he may be so bright that the tasks set for him in school are too easy to challenge his interest.

The brightness of your child is shown less by what he can do than by the age at which he can do it.

If your child is really gifted, he will reach the point in character development at nine years of age that the average, not particularly gifted, child will need fourteen years to reach.

There is a higher percentage of all-round health and vitality in bright than in dull children.

Every father in America who thinks he has a bright child should buy, read, and digest Terman's two volumes called "Genetic Studies of Genius."

## OUR CHILDREN

By ANGELO PATRI

## WHAT CAN I DO?

Jesse stood before his mother and his teacher, the picture of wilfulness. His sturdy legs were far apart; his big eyes shone with impudent joy. He surveyed his mother and teacher with calm impudence.

"Why Jesse, tell us WHY you behave like this."

"Just because I want to," said he sweetly.

"There, You see? That's how he is all the time. What can I do with him?" asked his mother.

"I'm sure I don't know. I can't do anything with him either," said the teacher, her voice slightly tinged with impatience. "I'd suggest that you take him home and try to find some way of teaching him something."

And now, when Jesse hears the rush of cold water in the wash basin he changes his mind. He goes off, however, reluctantly, to do what he is supposed to do. He knows that somebody can do something with him and for himself.

## TRUTHFUL FRITZ

TEACHER (preaching on honesty): Now, Fritz, if you found a shilling, would you keep it?

FRITZ: No, sir.
